EPA Reg. No. 51036-153

EPA Est. No. 51036-GA-1

Manufactured By:
MICRO FLO COMPANY
P.O. BOX 5948
LAKELAND, FLORIDA 33807

PRECAUTIONARY STATEMENTS
Hazards To Humans And Domestic Animals

CAUTION

May be harmful if swallowed. Do not take internally. Avoid eye and skin contact. Keep away from food, feedstuffs, and domestic water supplies.

2044

NOTE TO PHYSICIAN - Active Ingredient is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

PERSONAL PROTECTIVE EQUIPMENT

Applicators and other handlers must wear:

1. Long-sleeved shirt and long pants
2. Waterproof gloves
3. Shoes plus socks

Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should:

1. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
2. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to pets, birds, fish and aquatic invertebrates. Birds feeding in treated areas may be killed. Clean up spilled product to reduce exposure to wildlife. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

~~This product is toxic to fish, pets, birds and other wildlife. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters. Apply this product only as recommended on this label.~~

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Disposal - Do not reuse container. Wrap container and put in trash collection.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment and restricted-entry intervals. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated such as plants, soil, or water, is:

1. Coveralls
2. Waterproof gloves
3. Shoes plus socks

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides [40 CFR Part 170]. The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

Keep children, pets and other unprotected persons out of treated areas until dusts have settled.

AS A BAIT APPLIED TO THE SOIL OF FLOWER BEDS - For the control of ants, sow bugs, field and mole crickets, cutworms, earwigs, and darkling beetles, apply this product at the rate of 2-1/4 pounds to cover 1,000 square feet. Sprinkle over the soil area uniformly in areas where these insects are seen or are feeding. Replace bait as needed for continued control. Apply approximately 100 pounds per acre. Apply in late afternoon when the soil is moist.

MOLE CRICKETS IN LAWNS, GOLF COURSES AND OTHER ORNAMENTAL TURF. For control of mole crickets apply this granule product at the rate of 100 pounds per acre or 2-1/4 pounds per 1,000 sq. ft. Spread evenly over the area using a mechanical spreader. Apply in late afternoon on moist soil in areas known to be infested with these

4044

insects. Repeat application in about one week for best control.

The best time to control the Southern Mole Cricket:

March through August - egg laying time

February through September - adult mole crickets.
