Micro Flo Company P.O. Box 5948 Lakeland, FL 33807

Dear Ms. Gaskins:

Subject: Added use sites

SLAM

EPA Registration No. 51036-185 Your resubmission of May 6, 1993

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), sec. 3(c)(7)(A), is acceptable provided that you:

- 1. Submitted and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
- Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

DHE

Dennis H. Edwards, Jr. Product Manager (19) Insecticide Rodenticide Branch Registration Division (H-7505C)

ENVIRONMENTAL HAZARDS

This product is extremely toxic to estuarine and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes.

This posticide is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are

visiting the treatment area.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal Storage: Store in unopened package in a cool, dry location. Pesticide disposal: Pesticide that cannot be used according to label instructions must be disposed of according to applicable Federal, State and Local procedures.

Container disposal: Completely empty bags into application equipment. Dispose of empty bags in a sanitary landfill or by incineration if allowed by State and Local authorities. If burned, stay out of smoke.

General: Consult Federal, State or local disposal authorities for approved alternative procedures.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

IT IS CRITICAL THAT SLAW BE APPLIED AS DIRECTED

NOTE: Preharvest Interval days indicated in () after each use.

APPLICATION:

Broadcast or band application. Dilute with water for a minimum of two quarts finished spray per acre by aerial or ground at lower rate and one gallon finished spray at higher rate.

MOTE: Because of bait mode of action, minimum rate (band or broadcast) is 1/4 pound per acre.

NOTE: Bome states may require a higher rate of finished spray per acre.

NOTE: This material is a suspension and not a true solution. This requires that spray mixture be kept under constant and adequate agitation to maintain a consistent mixture. Failure to maintain adequate agitation can result in uneven distribution and less effective pest control.

IMPORTANT: DUE TO MATURE OF THIS FORMULATION, DO NOT USE SCREENS OR MOSSLES FINER THAN 10 MESS.

TIMING:

Apply at beetle emergence in the spring before egg laying begins, or when beetle population levels reach the economic threshold and

crop indicates further control measures need to be taken. Consult your local Cooperative Agricultural Extension Service or crop consultant for further information regarding Diabroticine beetle control on crops in your area.

FIELD CROPS

Alfalfa: (0)

For Banded Cucumber Beetle, Striped Cucumber Beetle, Spotted Cucumber Beetle, Western Spotted Cucumber Beetle and Western Striped Cucumber Beetle - Apply 1/2 to 3/4 lb. per acre per application.

Maximum of 3 3/4 lb. of product per crop growing season.
