U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS 767) WASHINGTON, DC 20460	EPA REGISTRATION NO. <b>51109-5</b>	DATE OF ISSUANCE <b>SEP 30 1994</b>
	NAME OF PESTICIDE PRODUCT <b>E-Z CLOR GRANULAR TRICHLOR</b>	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

South Central Pool Supply, Inc.  
 2750 Lake Villa Drive, Suite 201  
 Metairie, LA 70002

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Refer to the enclosed Attachment A for the necessary revisions to the Precautionary Statements for the subject product.
2. Revise the Environmental Hazards statement to read: "This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this

product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA."

3. Delete the heading "General Information" and place the Misuse Statement under the "Directions For Use" heading.

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

## ISOCYANURATE RED ATTACHMENT A - Batch 31

**LABELING:** (Statements are based on review of referenced acute toxicity data)

1. The signal word is "DANGER"
2. Revise the Precautionary Statements to read:

**CORROSIVE:** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

3. Revise the Statement of Practical Treatment to read:

**STATEMENT OF PRACTICAL TREATMENT.**

**IF SWALLOWED:** Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

**IF IN EYES:** Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

**IF ON SKIN:** Wash with plenty of soap and water. Get medical attention.

**IF INHALED:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

SEP 30 1994

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act as  
amended, for the pesticide  
registered under EPA Reg. No. 51109-5

#### GENERAL INFORMATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

E-Z Clor Granular Trichlor is for use against algae attached to pool bottom and/or horizontal surfaces. For floating algae or algae adhered to side wall E-Z Clor Liquid Algaecide or Algi-Klear should be used.

#### DIRECTIONS FOR USE

1. Using a suitable test kit, check total alkalinity and pH of pool water. Total alkalinity should be at least 80 ppm, and pH 7.2-7.6. Add E-Z Clor pH UP or pH DOWN as necessary to obtain correct reading.
2. Brush algae spots with a stiff bristle or wire algae brush.
3. Turn off pump and filter and allow water to settle. Filter should be off for 2-4 hours during treatment.
4. Broadcast Granular Trichlor over affected areas. The dosage is 1 to 1 1/2 ounces per 1,000 gallons pool water.
5. After 2-4 hours, brush the affected areas again, and the algae should come loose. If any stubborn spots remain, repeat the treatment on these areas.
6. After treatment is complete and all granules are dissolved, check the pH and chlorine readings. Pool water should be maintained at pH 7.2-7.6 and chlorine at 1.0-2.0 ppm. Give shock dose, at the above rates whenever algae first becomes visible.

Note: Since Granular Trichlor is a strong oxidizing and bleaching agent, DO NOT USE IN PAINTED OR VINYL LINER POOLS.

Reentry: Reentry into treated swimming pool/spas is prohibited above levels of 3 ppm of chlorine.

#### PRECAUTIONARY STATEMENTS

##### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.
