U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (15 767) WASHINGTON, DC 20460 NOTICE OF PESTICIDE ☒ REGISTRATION REREGISTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended)</i>	EPA REGISTRATION NUMBER 51109-7 DATE OF ISSUANCE SEP 30 1994 NAME OF PESTICIDE PRODUCT TRI-CHLOR SLOW STICKS
NAME AND ADDRESS OF REGISTRANT (Include ZIP code) South Central Pool Supply, Inc. 2750 Lake Villa Drive, Suite 201 Metairie, LA 70002	
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.	
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.	
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.	
Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.	
Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.	
Make the following labeling changes before you release the product for shipment:	
1. Refer to the enclosed Attachment A for the necessary revisions to the Precautionary Statements for the subject product. 2. Revise the Environmental Hazards statement to read: "This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this

2

product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA."

3. Delete the heading "General Information" and place the Misuse Statement under the "Directions For Use" heading.

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

ISOCYANURATE RED ATTACHMENT A - Batch 31

LABELING: (Statements are based on review of referenced acute toxicity data)

1. The signal word is "DANGER"
2. Revise the Precautionary Statements to read:

CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

3. Revise the Statement of Practical Treatment to read:

STATEMENT OF PRACTICAL TREATMENT.

IF SWALLOWED: Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

KEEP OUT OF REACH OF CHILDREN

DANGER

See first aid and other precautions on back panel.

Active Ingredient: Trichloro-s-triazine 84.6% Total

Inert Ingredients: 15.4%

Net contents: 5 lbs (2.27 Kg)

ACCEPTED
with COMMENTS
in EPA Letter Dated:
SEP 30 1994

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended for the pesticide
registered under EPA Reg. No. 51109-7

GENERAL INFORMATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is effective as a pool water disinfecting agent when used as directed. It is recommended that the pool be stabilized with E-Z Chlor Chlor Saver to nullify the dissipation effect of sunlight on chlorine. When using this product, both chlorine and cyanuric acid stabilizer are being added to the water. However, it is necessary to initially stabilize pool with E-Z Chlor Chlor Saver to effectively maintain the desired concentration of stabilizer. Follow the directions on the label for that product.

DIRECTIONS FOR USE

The filter system should be backwashed or properly cleaned and the pH adjusted between 7.2 and 7.6. Before using this product, it is necessary that the pool be super-chlorinated so that a free chlorine residual of between 1.0 and 3.0 ppm is obtained.

These sticks may be used in various type skimmers, floaters, proportioning mechanisms or feeders. Adjust whatever feeding mechanism that might be used to assure consistent treatment level of 1.0 to 2.0 ppm free available chlorine in the pool water (normally 1-2 ozs. of this product per 10,000 gallons daily).

The regular use of a free chlorine test kit will determine if further adjustment may be necessary to maintain the recommended level of free available chlorine in the pool water.

A shock treatment should be made every week during hot weather or after heavy rain. Less frequent shock treatments may be made during cool weather. For the shock treatment, add an E-Z Chlor shock treatment product according to label directions for that product. Swimmers should not be permitted in the pool after the shock treatment until the chlorine residual is below 3.0 ppm.

Reentry: Reentry into treated swimming pools/spas is prohibited above levels of 3 ppm of chlorine.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Inhaling to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PRACTICAL TREATMENT—FIRST AID: IF SWALLOWED, promptly drink one or two large glasses of water or milk. DO NOT induce vomiting. Get medical attention. Avoid

alcohol. If on the Skin: Brush off excess chemical and flush skin with water for at least 15 minutes. If in Eyes: Flush with cold water for at least 15 minutes.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into streams, ponds or public waters unless in accordance with an NPDES permit. Contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS STRONG OXIDIZING AGENT: Mix only with water. Use clean, dry utensils. Do not add dispensing device containing remnants of any other product. Such violent reaction leading to fire or explosion. Contamination with molten metal, or other chemicals may start a chemical reaction, with generation of hazardous gases, and possible generation of fire and explosion. Contamination or decomposition, do not reuse container, if possible in open air or well ventilated area. Flood with large volumes of water.

STORAGE AND DISPOSAL

STORAGE: Keep container tightly closed. Store in a dry place. Do not use container. Keep container off wet floors. Do not contaminate feed by storage or disposal.

DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal, spray residue, or residue is a violation of Federal law. If these are disposed of by use according to label instructions, contact your State Environmental Control Agency, or the Hazardous Waste representative at Regional Office for guidance.

CONTAINER DISPOSAL: Completely empty container of contents particles. Do not reuse container. Wrap (container) and put in trash.

DO NOT REUSE CONTAINER.
