Arlington, VA 22202

Dear Ms. Smith:

Subject: Amendment - Label Revision
Organic Plus® Pyrethrin/Diatomaceous Earth Insecticide
EPA Registration No. 65462-4
Your Letter Dated November 10, 1992

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling.

1. Under Directions for Use, add the following limitations:

Do not use in commercial food/feed handling establishments, restaurants or those areas where food is commercially prepared or processed.
2. Under Fire Ants change "window sills" to window frames.
3. The dry powder use directions must be more specific with regards to rate, injection pressure, equipmer, etc. or deleted from the label. Lack of specific instructions and type of equipment can easily lead to misuse especially when the product is available to the general public verses a trained applicator.

Submit five copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

NET WT.

ACCEPTED
with COMMENTS
in EPA Letter Dated

NCV 16 1992

Under the F. Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

65462-4

STATEMENT OF PRACTICAL TREATMENT: If in Eyes: Flush eyes with plenty of water. Call a physician immediately, if irritation persists. If on Skin: Remove contaminated clothing and wash affected areas with soap and water. If Inhaled: Remove person to fresh air. If Swallowed: Call a physician or Poison Control Center immediately. Do not induce vomiting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Organic Plus® Pyrethrin/Diatomaceous Earth Insecticide is a contact insecticide. Treat when insects are present and repeat as required to maintain control. Apply uniformly with a hand duster, powder duster or similar equipment to running areas and places where crawling insect pests are found. Remove or cover food prior to use. All food preparation surfaces and utensils should be covered during treatment, or thoroughly washed before use.

FIRE ANTS: Kills and temporarily reduces annoyance of fire ants. To reduce annoyance from fire ants and to keep them from entering homes, thoroughly dust patios, barbecue areas, driveways, entry ways, door sills, window sills, other entrance areas, foundations of buildings, ant trails, around pools and areas where fire ants are noticed. Dust until the area is well covered, contacting as many insects as possible. See directions below for treatment of fire ant mounds.

FIRE ANT MOUNDS:

Liquid application: Prepare solution by mixing 4 tablespoons/gallon or 1 pound/25 gallons of water. Drench both the mound and the area within six inches of the mound with solution. Apply gently to avoid disturbing ants. Reapply as necessary. For best results, apply in cool weather (65-80°F) or in early morning or late evening hours. Treat new mounds as they appear.

Dry application: Inject dry Organic Plus® Pyrethrin/Diatomaceous Earth Insecticide into mound using air pressure.

COCKROACHES, ANTS, EARWIGS, SILVERFISH, CRICKETS, MILLIPEDES AND CENTIPEDES:

Coat with a layer of dust in areas where these pests are found or may hide such as cracks and crevices, behind and beneath stoves, refrigerators, sinks, cabinets, garbage cans, in and around sewer pipes and drains, window frames and in attics and basements. Apply directly to insects when possible.

HOUSE FLIES: Apply to surfaces of window frames, around light fixtures on porches, in garages and other similar places where these insects alight or congregate.

FLEAS, DOG TICKS AND LICE: Lightly work powder into the hair of the animal, working the powder down to the skin. Pay strict attention to places the animal cannot reach, such as the scalp. Dust the ears of the animal with care. Dust the animal's bedding and areas where the animal sleeps, as well as cracks and crevices adjacent to them. Repeat once a month or as necessary. Thoroughly dust individual dog ticks observed on the animal.

CARPET BEETLES: Thoroughly dust along baseboards, edges of carpeting, under furniture, under carpeting and rugs, in closets and shelving, and wherever carpet beetles are seen or suspected.

BEDBUGS: Take bed apart. Dust into joints and channels. If hollow, such as square or round tubing, dust interior of the framework well. Dust mattresses, especially tufts, folds and edges. Treat all cracks and crevices in the room.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not apply directly to water. do not contaminate water when disposing of equipment washwaters.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in a cool, dry place way from food or feed. Keep out of reach of children.

DISPOSAL: Do not reuse empty container. Wrap in several layers of newspaper and discard in trash.

NOTICE TO USE: Seller's guarantee shall be limited to the terms of the label and subject thereto, the buyer assumes all risks to persons or property arising out of the use or handling and accepts the product on these conditions.
