The RectorSeal Corporation
2830 Produce Row
Houston, TX 77021

Subject: Actabs XX
EPA Registration No. 51219-4
Your Application of November 7, 1996

Attn: David Bell
Technical Director

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable, provided that you make the following changes.

Revise the "Precautionary Statements to read: Corrosive: "Causes irreversible eye damage. Do not get in eyes or on clothing. Wear goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

A Stamped copy of the label is enclosed for your records. Submit one (1) copy of the finished printed label before this product is released for shipment.

If you have any questions about the comments in this letter you should contact Drusilla Copeland at (703) 305-6938.

Sincerely,

Marion J. Johnson

ACTABS® XX

FOR AIR CONDITIONING SYSTEMS FROM 20 TONS & UP

12 (1/3 OZ.) TABLETS NET WT. 4 OZ.

DANGER: KEEP OUT OF REACH OF CHILDREN. CORROSIVE.
See back panel for other warnings and antidote statement.

Eliminates or prevents most blockages in drain lines due to the build-up of bacterial slime, rust, scale, sludge, air-borne dust, silt and other solids. Combats stale water odors. When used according to directions, ACTABS® XX will inhibit the growth of the following organisms: thermoactinomyces vulgaris, pseudomonas effusa, pseudomonas aeruginosa, bacillus circulans, bacillus licheniformis, bacillus megaterium and aerobacter aerogenes.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Remove inner package containing tablets from outer plastic bag. Place the package, holes down and tablets facing up, into drain pan at a point as far from the drain hole as possible. Be sure that the single tablet at one end of the package is farthest from the drain hole. In extremely dirty pans it would be helpful to clean the pan before placing the package in the pan. The dirt might block the opening in the bottom of the package and inhibit metering of the ACTABS® XX. If there is any concern about the pouch being pushed to a hard-to-reach part of the drain pan, or if the drain hole is very large, tie one end of the cord to the grommet on the pouch, and affix other end to unit. Use one pouch for every seven square feet of drain pan area. The pouch should not be completely submerged. If necessary place a brick or similar object into the pan and place the pouch on top of it so that the top of the pouch is above the water level.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER: Causes skin and eye irritation. Do not get in eyes, on skin or on clothing. In case of contact, flush with plenty of water. Harmful if swallowed. Avoid contact with food.

Statement of Practical Treatment

If swallowed: Promptly give milk and induce vomiting. Follow with more milk. Call a physician immediately.

If in eyes: Flush with plenty of water. Get medical attention if irritation persists.

If on skin or clothing: Remove contaminated clothing and wash before reuse. Wash skin with soap and warm water. Get medical attention if irritation persists.

Note to Physician: Probable mucosal damage may contraindicate use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
