SUBJECT: ACTABS XX
EPA Registration Number: 51219-4
Application Dated: May 4, 2011
Receipt Date: May 10, 2011

Dear Mr. Kerns:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with comments.

- Updating First Aid Statement as required by PR Notice 2001-1 and in response to New-York DEC letter dated April 26, 2011.

Conditions

1. Revise the Precautionary Statement to include the following: "...Wash thoroughly with soap and water after handling and before eating, drinking, *chewing gum*, using tobacco *or using the toilet*".
2. Revise the First Aid section by adding: "*Note to Physician; Probable mucosal damage may contraindicate the use of gastric lavage*" as the final statement.

General Comments:

The stamped copy of your label is attached. Should you have any questions concerning this letter, please contact Emilia Oiguenblik at (703) 347-0109 or Velma Noble at (703) 308-6233.

Sincerely,

Velma Noble

ACTABS® XX

AIR CONDITIONING & REFRIGERATION DRAIN PAN TREATMENT
FOR AIR CONDITIONING SYSTEMS FROM 20 TONS & UP

12 (1/3 OZ.) TABLETS NET WT. 4 OZ.

KEEP OUT OF REACH OF CHILDREN.
DANGER: SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

Eliminates or prevents most blockages in drain lines due to the build-up of bacterial slime, rust, scale, sludge, air-borne dust, silt and other solids. Combats stale water odors. When used according to directions, **ACTABS® XX** will inhibit the growth of the following organisms: Thermoactinomyces vulgaris, Pseudomonas effusa, Pseudomonas aeruginosa, Bacillus circulans, Bacillus licheniformis, Bacillus megaterium and Aerobacter aerogenes.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Remove inner package containing tablets from outer plastic bag. Place the package, holes down and tablets facing up, into drain pan at a point as far from the drain hole as possible. Be sure that the single tablet at one end of the package is farthest from the drain hole. In extremely dirty pans it would be helpful to clean the pan before placing the package in the pan. The dirt might block the opening in the bottom of the package and inhibit metering of the ACTABS® XX. If there is any concern about the pouch being pushed to a hard-to-reach part of the drain pan, or if the drain hole is very large, tie one end of the cord to the grommet on the pouch, and affix other end to unit. Use one pouch for every seven square feet of drain pan area. The pouch should not be completely submerged. If necessary place a brick or similar object into the pan and place the pouch on top of it so that the top of the pouch is above the water level. Replace pouch when tablets have dissolved.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Store in a cool, dry place inaccessible to children.

DISPOSAL: Nonrefillable container. Wrap container and put in trash collection.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER: Corrosive. Causes irreversible eye damage and skin irritation. Do not get in eyes or on skin or on clothing. Harmful if swallowed. Wear (goggles, face shield, or safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing. Call a Poison Control Center or doctor for treatment advice.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Note to Physician: Probable mucosal damage may contraindicate use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
