Over the past few years, many people have
been using Zap-A-Roach to kill roaches in their
homes.

Zap-A-Roach[®]

100% BORIC ACID ROACH KILLING POWDER

The following information is for your use only.
Please read it carefully before using Zap-A-Roach.
Labeling

To control cockroaches, ants, and silverfish
and waterbugs, Zap-A-Roach should be used where
should flow freely from the nozzle. Do not
not cut off more than 1/4 inch of the top of the
remove top. Use a spray bottle to apply Zap-A-Roach
hard to reach places. Apply liberally, especially
under and behind refrigerator, stove, sink,
dishwasher, washing machine, and dryer. Also
in crevices around doors, windows, pipes, and
in cracks and holes in walls, floors, and ceilings.
Apply Zap-A-Roach to the following areas:
Under and behind sets, furniture, and wall
in kitchen and bathroom. Apply Zap-A-Roach
in crevices and chests of drawers, under
shelves, and lower walls.

Apply as necessary. Any powder left
after application must be brushed off and
removed. Apply Zap-A-Roach to the
following areas: Under and behind
refrigerator, stove, sink, dishwasher, washing
machine, and dryer. Also in crevices around
doors, windows, pipes, and in cracks and
holes in walls, floors, and ceilings. Apply
Zap-A-Roach to the following areas:

Under and behind sets, furniture, and wall
in kitchen and bathroom. Apply Zap-A-Roach
in crevices and chests of drawers, under
shelves, and lower walls.

STOP! Zap-A-Roach is a powerful
pesticide. It is not to be used on
DISPOSABLE items. Do not use Zap-A-Roach
on anything that will be thrown away.
