 <p>U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (H7505C) 401 "M" St., S.W. Washington, D.C. 20460</p> <p>NOTICE OF PESTICIDE: <input type="checkbox"/> Registration <input checked="" type="checkbox"/> Reregistration</p> <p>(under FIFRA, as amended)</p>	EPA Reg. Number:	Date of Issuance:
	51578-1	FEB 7 2000
	Term of Issuance:	
Name of Pesticide Product:		
TWPO Total Wood Preservative		
Name and Address of Registrant (include ZIP Code):		
<p>AMTECO, Inc. P.O. Box 9, 1100 Jefferson Drive Pacific, MO 63069</p>		
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistration under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p>		
<p>Based on your response to the Reregistration Eligibility Document, the reregistration of the above named product is dependent on (1) the label related recommendations itemized in the succeeding paragraphs and (2) the submission, review and acceptance of the of the two outstanding Toxicology studies, GDLNs 81-8 & 82-7. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amendment.</p> <p>Reregistration under this section does not eliminate the need for pesticides, EPA may require submission of data at any time to maintain the registration of your product.</p> <p>The changes in the following recommendations (Revision of label) must made before the product is release for shipment.</p>

Recommendations

The Subject product requires significant revisions in order to conform with the RED, Technical Reviews and Agency label policies (See Appendices I & II)

The subject product label does not contain risk mitigation labeling requirements as specified in the RED.

- The Application Restriction must be added to the label.
- The User Safety Recommendations must be added to the label.
- The FIRST AID statements must be modified as specified in Appendix I
- The Precautionary Statement under Hazards and Domestic Animals must be modified as specified in Appendix I.

The subject product does not contain the required labeling as specified by 40 CFR Part 156.10 PR Notice and the Label Review Manual.

- The Environmental Hazards statement must be modified.
- The Product Name modified.

The purposes of clarity and consistency with other labels, the following changes must be made:

- The "Storage and Disposal" be enclosed in a box and be placed directly below the Violation of Federal Law text.
- "General Information" subheading be added and placed directly under the Storage and Disposal box.
- "General Precautionary and Restrictions" be added and placed directly under the "General Information" section.
- "Application Instructions" be added to the label and placed directly below "General Precautionary and Restriction" section.

See the attached appendix I and II for further details.

A stamp copy of the product label is enclosed for your records. Please ensure that five (5) copies of the final printed labeling are submitted and accepted before the product is released for shipment.

page 3 of 3

Reg No. 51578-1

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Sincerely,

Adam Heyward
Product Manager 34
Regulatory Management Branch II
Antimicrobials Division (751CW)

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Harmful if swallowed or absorbed through skin or inhaled. Avoid contact with skin, eyes or clothing. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.
IF SWALLOWED: Call a doctor or get medical attention. Do not induce vomiting. Promptly drink a large quantity of milk, egg whites or gelatin solution; if these are not available drink large quantities of water. Do not give anything by mouth to an unconscious person. Avoid alcohol.
IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.
IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Get medical attention.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

PHYSICAL AND CHEMICAL HAZARDS

Combustible. Do not use or store near heat or open flame.

Guarantee: If not satisfied with this product when applied according to label directions, additional product will be provided or your purchase price will be refunded. Replacement or refund of purchase price is the sole and exclusive remedy.

TWP: TOTAL WOOD PRESERVATIVE:

TWP is a unique combination of chemicals that preserves the natural beauty and warmth of new wood. Even old wood may be restored to its natural color with proper surface preparation. TWP protects wood substances from premature loss of color, water rot, surface mildew, and water absorption. The product contains powerful ultra violet light screening chemicals that prevent unsightly graying and loss of natural color. TWP is not intended for the control of termites or other wood destroying insects. TWP is available in 101 Cedar Tone Natural, 102 Redwood, 103 Dark Oak, 104 Black Walnut, 105 Cape Cod Gray, and 106 Prairie Gray. TWP is not re-tintable nor intended for below ground use. TWP may be intermixed with its self color variation.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is for exterior use only and is not intended for use in direct contact with soil.

MIX THOROUGHLY BEFORE USING

New Wood: Smooth planed wood should be pre-treated with "TWP New Wood Surface Conditioner" when natural weathering to open wood grain is not practical. Rough sawn surfaces must complete two cycles of water soaking and thorough drying before finish application. Kiln dried pressure treated wood may be pretreated with Surface Conditioner and finish coated with TWP after 4 hours dry. All surfaces must be dry before applying TWP finishes. Wet shipped pressure treated wood should be allowed 12 month natural weathering before finish coat application.

Old Wood: Unprotected old wood is typically various shades of gray to black. This is due to mildew and ultra violet light attack on the wood surface. Remove mildew and dirt by power washing or scrubbing in conjunction with the following procedure: 1 Quart household bleach to 1 Quart water. Rinse thoroughly and allow to dry. Surface must be completely dry before applying TWP.

Previously Stained Wood: TWP is designed for application on clean wood surfaces. Applying this product over a sealed surface will result in a glossy film. TWP will function best if old finish is removed.

SPREAD RATE: Apply 100-300 sq. ft./gallon rate will vary depending on wood porosity. First coat should be a saturation coat. A second coat, if desired must be applied immediately after the first coat.

Method of Application: Use brush, roller or spray. Do not apply below 50°F.

Thinner: None required. Use Mineral Spirits for equipment cleanup.

STORAGE AND DISPOSAL

STORAGE: Do not expose this product to excessive heat or cold.

DISPOSAL: Do not contaminate water, food, or feed by storage and disposal. Wastes resulting from the use of this product may disposed of on site or at an approved waste disposal facility.

Household Users: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
