Mr. Rob Adams  
Elite Chemical Corporation  
P.O. Box 1947  
Norcross, GA 30091

JUL 31 1987

Dear Mr. Adams:

Subject: Elite Flea & Tick Spray II  
EPA Registration No. 51793-5

The amendment to the subject registration, the addition of PABA sunscreen to the formulation, proposed in your application dated February 25, 1987 is acceptable. The draft label submitted with this application must be revised as indicated in the attached edited copy.

This amendment is granted on your statement that you will not market the product under your own label and that the product will be marketed solely by your supplementally registered distributors, as your agents. If at any time you market this product under your own label, you must submit five copies of the finished printed labels before you release the product for shipment under your label. It is understood that your agent's labels will comply with the revisions prescribed above and also comply with the general labeling requirements of 40 CFR 162.10.

Sincerely yours,

*Arturo E. Castillo*  
Arturo E. Castillo

NET CONTENTS    16 FL OZ

PRECAUTIONARY STATEMENTS  
CAUTION

HUMAN: Harmful if swallowed or inhaled. Avoid breathing mist. Keep out of eyes. Avoid contamination of food. Wash hands with soap & water after using.

ANIMAL: Avoid treatment of foals under six weeks old and nursing kittens & puppies. If treatment is necessary spray on tips of fingers & rub coat.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply where runoff is likely to occur.

**PHYSICAL OR CHEMICAL HAZARDS:** Flammable. Keep away from heat and open flame.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Use only in well ventilated area.

**CATS and DOGS**

Cover animals eyes with hands. With a firm stroke to get a proper spray mist, spray head, ears and chest until damp. With fingertips, rub into face around mouth, nose, and eyes. Then spray neck, middle and hind quarters, finishing legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired dogs rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed.

**PUPPIES and KITTENS**

Treat same as cats and dogs except nursing puppies and kittens. Spray only along back or on your fingertips and rub in.

**PETS SLEEPING QUARTERS**

Spray around baseboards, windows, door frames, wall cracks and local area of floors. If mosquitoes, gnats, or flies are present, spray lightly into the air. Repeat as needed. The pets bedding should be sprayed, making sure the area beneath the bedding is sprayed. After spray has dried, remove old bedding and replace with fresh bedding. Treat pets with one of our registered Flea & Tick Control products before allowing them to enter treated area.

**HORSES**

Use full strength to control stable flies, horse flies, deer flies, face flies, gnats and mosquitoes. Apply to face, legs, flanks, top line and other body areas commonly attacked by these flies. Do not wet horses' skin with excessive spray. After application, brush thoroughly to bring out bright sheen on the coat. Repeat treatment as needed.

**HOLD BOTTLE IN UPRIGHT POSITION WHEN SPRAYING**

**STORAGE AND DISPOSAL**

**Storage:** Do not use or store near heat or open flame.

**Disposal:** Do not reuse empty container. Wrap container and put in trash collection.
