US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 51793-22	DATE OF ISSUANCE OCT 1 1985
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Elite Aerosol Insect Spray with Diazinon	

NOTICE OF PESTICIDE: ☐ REGISTRATION
☐ REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Elite Chemical Corporation
P.O. Box 970888
Miami, FL 33197

160/143225
18/1

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 51793-22."
3. Provide the following Product Chemistry data:
 - a. A brief description of the formulation process.
 - b. Certification of limits including specific limits for each inert ingredient. Also provide the correct upper limit for pyrethrins.
 - c. Specific citation for the analytical method.
 - d. State the color and odor in common terms.

☐ ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL  DATE 10/1/85

- e. State the temperature at which you measured the density.
- f. Storage Stability data.
- g. Update storage and disposal statement per FR Notice 83-3.
- 4. Either delete "remains effective for weeks," or specify how long.
- 5. Change "To Control Fire Ants," to "Aids in Control of Fire Ants."
- 6. Delete 64 fl oz container size. We are not aware of this size container being under pressure.

Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIPRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

George T. LaRocca
Product Manager (15)
Insecticide-Rodenticide Branch
Registration Division (TS-767)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Spray infested surfaces until wet. Do not use as a space spray. Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Remove pets and cover or remove fish bowls before spraying. Do not allow children to contact treated surfaces until surfaces are completely dry.

TO KILL: Fleas and Brown Dog Ticks, Indoors—Clean premises thoroughly before treatment. Treat the entire floor and carpet area. Special attention should be given to cracks, crevices and under carpet and rug edges. Also treat animal sleeping quarters, closets, upholstered furniture (with particular attention to seams), beds, under sofas and other furniture. In animal sleeping quarters, bedding should be cleaned or replaced with fresh bedding.

To avoid reinfestation, pets must be treated simultaneously, with an E.P.A. approved insecticide labeled for use on animals. Application should be repeated as necessary. Humans and pets should avoid contact with treated surfaces (rugs, upholstered furniture, etc.) for 4 hours after treatment.

TO KILL: Fleas, Chiggers, and Ants, Outdoors—For treatment of localized infestation of these insects in outdoor areas, spray weeds and bushy non-crop areas around the home thoroughly. Avoid spraying desirable plants. For ants, thoroughly wet hills and runways. Repeat applications as reinfestations occur.

TO KILL: Ants, Crickets, Cockroaches, Silverfish, Spiders—Spray areas where these pests are found or may hide, including dark corners of rooms and closets, cracks, crevices, along baseboards, and door sills and frames, behind and beneath sinks, stoves, refrigerators, cabinets and around garbage cans, plumbing and other utility installations. Pests flushed out of hiding should be sprayed directly. Treat ant trails, nests and points of entry. Repeat treatment as necessary.

To control house flies, gnats, hornets, mosquitoes, small flying moths, wasps and yellow jackets: Use only on outdoor surfaces. Spray outside surfaces of windows and door frames and other areas where these pests may enter the home. Also spray dark crevices and localized resting areas, such as under eaves, porches, partitions and in garages where these insects may congregate. Flies and mosquitoes coming to rest or treated surfaces will be killed. Repeat treatment when effectiveness diminishes.

ELITE AEROSOL INSECT SPRAY

With
DIAZINON

PROFESSIONAL STRENGTH

Residuality Kills:

FLEAS, TICKS, ROACHES

and others listed on side panel

A water based insecticide

with flushing and quick knockdown

Residual - remains effective for weeks.
