NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 51793-23" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

DIRECTIONS FOR USE

is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not use as a space spray. Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Remove pets and cover or remove fish bowls before spraying. Do not allow children to contact treated surfaces until surfaces are completely dry.

TO KILL: Fleas and Brown Dog Ticks, Indoors—Clean premises thoroughly before treatment. Treat the entire floor and carpet area. Special attention should be given to cracks, crevices and under carpet and rug edges. Also treat animal sleeping quarters, closets, upholstered furniture (with particular attention to seams), beds, under sofas and other furniture. In animal sleeping quarters, bedding should be cleaned or replaced with fresh bedding. Do not use this application in nurseries or any area where infants may sleep. Apply at the rate of 1 gallon to 750 sq. ft.). To avoid reinfestation, pets must be treated simultaneously, with an E.P.A. approved insecticide labeled for use on animals. Application should be repeated as necessary. Humans and pets should avoid contact with treated surfaces (rugs, upholstered furniture, etc.) for 4 hours after treatment.

TO KILL: Fleas, Chiggers, and Ants, Outdoors—For treatment of localized infestation of these insects in outdoor areas, spray weeds and bushy non-crop areas around the home thoroughly. Avoid spraying desirable plants. For ants, thoroughly wet hills and runways. Repeat applications as reinfestations occur.

TO KILL: Ants, Crickets, Cockroaches, Silverfish, Spiders—Spray areas where these pests are found or may hide including dark corners of rooms and closets, cracks, crevices, along baseboards, and door sills and frames, behind and beneath sinks, stoves, refrigerators, cabinets and around garbage cans, plumbing and other utility installations. Pests flushed out of hiding should be sprayed directly. Treat ant trails, nests and points of entry. Repeat treatment as necessary.

To control house flies, ants, borers, mosquitoes, small flying flies, wasps and yellow jackets: Use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray dark corners and localized resting areas, such as under eaves, porches, partitions and in garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when effectiveness diminishes.

5 MIN CONTROL FIRE ANTS: Apply 1 gallon of solution as a gentle rain to each ant mound using a sprinkler can. Thoroughly wet mound and surrounding area to 4 foot diameter (12.5 sq. ft.). For best results, apply in cool weather, 65-80°F, or in early morning or late evening hours. Treat new mounds as they appear. Do not disturb the mound prior to treatment. If possible, treat all mounds in the vicinity, and treat all mounds which may not as yet have constructed a mound.

Keep children and pets off treated area until spray has dried. Avoid tracking pesticide to the home via contaminated footwear.

ELITE INSECT SPRAY

With
DIAZINON

Residually Kills:
FLEAS, TICKS, ROACHES
and others listed on side panel
A water based insecticide
with flushing and quick knockdown

ACCEPTED
with COMMENTS
in EPA Letter Dated:

JAN 07 1986

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 51793-23

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals

WARNING

Harmful if swallowed. May be absorbed through the skin. Avoid breathing of spray mist. Avoid contact with eyes. Wash thoroughly after handling and before eating. Do not allow spray to contact food, feedstuffs, or drinking water. Thoroughly wash dishes and food handling surfaces contaminated by this spray. Do not use on humans.

STATEMENT OF PRACTICAL USE

If Swallowed: Call a physician or Poison Control Center immediately. Drink one or two glasses of water immediately by touching the back of throat with finger. Repeat until vomit is clear. Do not induce vomiting or give any laxatives to an unconscious person.
If Inhaled: Remove victim to fresh air. Apply first aid as indicated.
If On Skin: Remove contaminated clothing. Wash skin and areas with soap and water.
If In Eyes: Flush eyes with plenty of water for at least 15 minutes. Irritation persists.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other animals. Do not apply directly to lakes, streams or ponds. Do not use in areas where cleaning of equipment or disposal of waste is required, unless only as specified on this label.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
Storage: Store in a cool dry area away from direct sunlight. Store above 32°F.
Disposal: Do not re-use container. Rinse thoroughly before discarding in trash. Securely close container in several layers of newspaper and discard in trash.
