DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Especially developed for use on horses. Provides a protective hair coating against flies while imparting a high sheen to the hair when brushed out. One to two ounces per head per day gives adequate protection. Apply by either soft cloth or fine mist spray.

For Use As a Spray: Apply in a fine mist or fog. Use one to two ounces per animal per day. Also treat adjacent stable areas for more effective fly control. Do not wet the animal's skin. After application, brush the coat to

give overall coverage. Make sure that legs and ankles are treated. For face area, treat as a wipe-on application.

To Wipe On: Rub the animal down and remove dirt. Pour a small amount (1 ounce) into a soft cloth and wipe on against the hair grain. Make sure to treat legs, belly, neck and facial areas, as well as the back line. Do not wet skin. After this application, brush the coat to bring out a bright sheen. Repeat as needed to kill and repel biting flies. During fly time, best protection will be given by treating animals 3 to 4 times each week.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
CAUTION

Harmful if swallowed. Remove or cover exposed foods before spraying. Do not apply to dairy animals.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

PHYSICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

WARNING: Contains methyl chloroform, a substance which harms public health and environment by destroying ozone in the upper atmosphere.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Do not induce vomiting unless directed by a physician. Petroleum distillate may cause aspiration pneumonia. Contact a physician immediately.

IF IN EYES: Flush eyes with plenty of water. Contact a physician if irritation persists.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if indicated.

IF ON SKIN: Remove contaminated clothing and wash affected areas with plenty of soap and water.
