DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

LAWN FLEA CONTROL:

To kill fleas harboring in lawns use this concentrate in a hose-end sprayer. Place required amount of concentrate in sprayer jar (see chart below) and fill with water to the recommended level. Mix well. Attach to sprayer and spray as recommended. For best results lawn should be mowed a day or two before spraying. Spray using a slow, even sweeping motion, being sure to cover the entire lawn surface where the pets will normally frequent. Spray under ornamentals and trees, but avoid soaking young or flowering plants. Repeat treatments may be necessary at 7 to 14 day intervals.

Keep pets and children out of the treated area until after the spray has dried. Do not spray animals. Dogs, cats, their kennel or bedding area should also be treated with a registered flea control product in conjunction with this application.

Amount of Product to Use Fluid Ounces*	Amount of Water to Use	Area to be Treated
1 1/3 fluid ounces	3 gallons	500 sq. ft. (50' X 10')
2 2/3 fluid ounces	6 gallons	1,000 sq. ft. (50' X 20')
5 1/3 fluid ounces	12 gallons	2,000 sq. ft. (50' X 40')

*NOTE: 1 fluid ounce = 2 Tablespoonsful = 6 Teaspoonsful

FOR OUTDOOR PESTS:

Mix concentrate in a compressed air sprayer or watering can at the rate of sixteen (16) fluid ounces per one (1) gallon of water to control on contact cockroaches, palmetto bugs, ants, crickets, sowbugs, spiders, and ticks. Use at the rate of one (1) gallon (diluted spray) per 1,000 square feet to outside surfaces of buildings, porches, patios, garages and other areas where these pests have been seen or are found. Do not spray in or near fish ponds or other bodies of water. Do not allow spray to contact ornamental plants or shrubs because of possible injury.

Building Perimeter Treatment: To help prevent infestations of buildings by ants, crickets, spiders, centipedes, and sowbugs (pillbugs), treat a 12-18 inch band of soil or other substrate adjacent to buildings and the building foundation to a height of 2 to 3 feet where these pests are active and may find entrance. Use four (4) fluid ounces of concentrate per gallon of water and apply as a coarse wet spray at the rate of one (1) gallon per 1,000 square feet.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Keep container closed.

Disposal: Do not reuse empty container. Rinse thoroughly and securely wrap original container in several layers of newspaper and discard in trash.
