DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a
manner inconsistent with its labeling.

Shake well before using. Apply to dry surfaces only. Do not wet powder.
Apply powder more heavily to areas of flooring or furniture on which the pet
spend most time.

Carpets: Shake powder evenly across surface. Brush lightly with broom to
force powder deep into carpet where fleas and their larvae exist. Wait at
least 60 minutes before (lightly) vacuuming to remove visible surface powder.
For maximum efficacy, delay vacuuming for up to 24 hours.

Upholstery: Remove loose cushions. Sprinkle along creases and into corners. Brush lightly to work powder into folds and creases. Vacuum to remove visible powder on surfaces. Do not use on exposed fabric without first testing on a hidden surface for effects on color (straining) or texture. If powder adheres to a spot, brush out and vacuum that area immediately.

When emptying vacuum bag after use, wrap contents or disposable bag in several layers of newspaper and discard in trash.

Treat pets with a registered flea and tick control product prior to re-entry.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry area inaccessible to children and pets.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.
