

MAY 2 1991

Mr. Rob Adams, Jr.  
Elite Manufacturing & Packaging, Inc.  
225 F Morison Drive  
Suwanee, GA 30174

Dear Mr. Adams:

Subject: Revised Label - Confidential Statement of Formula  
Elite Flea & Tick Shampoo VI

EPA Registration No. 51793-88

Your Submissions Dated March 29 and April 15, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

The formula dated March 29, 1991 is acceptable and has been included in our files for this pesticide. It replaces the formula previously accepted and it is understood that use of cyclopol SBCF would no longer be consistent with terms of this registration.

As new labels are prepared:

1. Delete "allyl homolog of Cinerin 1." It no longer accurately represents the allethrin in this formulation.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Thoroughly soak animal with warm water taking 2-3 minutes to wet hair. Do not apply shampoo around eyes. Apply shampoo on head and ears, then lather; repeat procedure with neck, chest, middle and hind quarters, finishing legs last. Let animal stand 10 minutes (this is an important part of the grooming procedure), then rinse animal thoroughly. In extremely dirty, or scaly animals, the above procedure may be repeated. Pet bedding and quarters should be treated simultaneously with an approved product.

### STORAGE AND DISPOSAL

Storage: Store in a cool area.

Disposal: Do not reuse container. Wrap and put in trash.

### PRECAUTIONARY STATEMENT

#### WARNING

#### Hazards to Humans and Domestic Animals

Humans: Causes eye and skin irritation. Do not get in eyes or on skin or clothing. Harmful if swallowed. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Animals: Do not use on pets less than six weeks old.

#### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not wash animal where runoff is likely to occur.

### STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush with plenty of water. Get medical attention.

IF SWALLOWED: Drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol.

IF IN SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.
