	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT ELITE AQUEOUS ROACH FOGGIER	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Elite Chemical Corporation, Inc.
 P.O. Box 147
 Norcross, GA 30091

160, 215 415
18 1

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(C) provided that you:

1. Submit to the EPA a matrix for registration/reregistration of your product under FIFRA section 3(c)(2) within the Agency requires all registrants of similar products to submit such data.
2. Make the following changes to the label you use you will use the product for shipment:
 - a. Add the phrase "EPA Registration No. 51793-93."
 - b. Since your data matrix does not give a dilution rate or a maximum volume, you must add the following to the label:

For use of this product as a roach fogger, dilute with water to the consistency of a thick slurry.
3. For data matrix commitments, you must submit the following information:
 - a. Statement of dilution to be used for water based formulations, e.g., 1:1000, 1:2000, etc.
 - b. Statement of dilution to be used for other formulations, e.g., 1:1000, 1:2000, etc.

- b. Flammability--flashpoint/flame extension. Please check and resubmit. Mixtures marketed under pressure, including those containing hydrocarbons, are subject in their entirety to tests indicated in 40 CFR 162.10(h)(2)(iii). (Flashpoints are conveniently measured after collecting the liquid expelled from the container in an open cup chilled with dry ice.)
- c. Storage Stability--the formulated product must be analyzed for its active ingredient at time zero and during a year of storage. The storage should be in warehouse conditions of temperature and humidity and stored in similar containers you will be using in the trade. Note: For the storage stability study, you cannot reference the concentrate you are using to formulate your product.
3. Corrosion Characteristics--this information can be noted during the storage stability study. Stability and corrosion data must be product-specific.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a
manner inconsistent with its labeling.

This product will kill Cockroaches, Houseflies, Confused
Flour Beetles, Saw-toothed Grain Beetles, Rice Weevils,
Small Flying Moths, Fleas, Flea Larvae, Ticks, Pill Bugs,
and Crickets.

Cover exposed food, dishes and food-handling equipment. Open cabinets and doors to area to be treated. Shut off fans and air conditioners. Put out all flames and pilot lights. Close doors and windows. Point valve opening away from face and eyes when releasing. Use one unit for each 6,000 cubic feet of unobstructed area. Use additional units for remote rooms or where free flow of mist is not assured. Do not remain in the area during treatment and ventilate thoroughly before re-entry.

TO OPERATE VALVE: To lock valve in open position for automatic discharge, press valve button all the way down, hooking the catch. Then place fogger on stand or table in the center of the room with valve locked open, placing several layers of newspaper or pad under fogger. Leave building at once and keep building closed for four hours before airing out. Open all doors and windows and allow to air for 30 minutes. Repeat spraying in two weeks or when necessary.

To Kill Fleas and Ticks: Destroy pet's old bedding and replace. Use product as above. Treat dogs and cats with a registered flea and tick control product prior to re-entry.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry area away from heat or open flame.

Disposal: Replace cap and discard container in trash. Do not incinerate or puncture.

PRECAUTIONARY STATEMENTS

CAUTION

Hazards To Humans and Domestic Animals

Harmful if swallowed. Avoid inhalation of vapors. Avoid contact with skin, eyes or clothing. Wash contaminated skin promptly with soap and warm water. For eyes, flush with plenty of water. Get medical attention if irritation persists. Avoid contamination of food and feedstuffs.

Do not use in commercial food processing, preparation, serving or storage areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food.

Remove pets, birds and cover fish aquariums before spraying.
