NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase, "EPA Registration No. 51793-168" to your label before you release the product for shipment.
3. Submit your Storage Stability study within 24 months of the Date of Issuance of this registration.
4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply these granules directly to foliage of shrubs or to ornamental, soft-bodied plants. Do not apply on or near food crops.

GENERAL: The most effective control for a pet is the sharply spoken word backed up with disciplinary action. For most effective results on pets, this repellent product should be used in conjunction with training.

To prevent your pet, or stray animals, from soiling flower beds, areas of lawn, trees, shrubbery or evergreen: Apply

these granules by hand or with a fertilizer spreader to borders of flower beds; or to ground or grass around the bases of shrubs, trees, and evergreens; or to patches of lawn you wish to protect. Sprinkle enough to cover the treated area lightly (about 4 pounds per 1000 sq. ft.). Repeat applications until the undesirable animal habits are broken. Repeat applications after rains.

To protect garbage cans and rubbish containers from disturbance by dogs and cats, sprinkle the ground or floor about them liberally with granules. Repeat as necessary.

Stray animals are frequently attracted to areas where urine or feces have been deposited. First, remove any droppings, then apply these granules.

NOTE: This product is not likely to break the established urination patterns of dogs, unless used as a training aid.

STORAGE AND DISPOSAL

Storage: Store only in original container, in a dry place inaccessible to children and pets.

Disposal: Do not re-use container. Securely wrap in newspaper and discard in trash.

PRECAUTIONARY STATEMENTS
