FEB 27 1992

Mr. Robert R. Adams, Jr.
Elite Manufacturing & Packaging, Inc.
225-F Horizon Drive
Suwanee, GA 30174

Dear Mr. Adams:

Subject: Revised label statements
Elite Dog and Cat Repellent-R67
EPA Registration Number 51793-169
Submission dated October 15, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Submit one copy of the final printed label prior to releasing the product for shipment.

1. It is acceptable to add the words "garbage cans" to the front panel listing of product use sites.
2. In the first sentence under the subheading "OUTDOORS" which appears in the DIRECTIONS FOR USE section, change the word "evergreen" to "evergreens".
3. Move the directions for "Garbage and Garbage Cans" so that they follow the "NOTE: This product is...aid." The "NOTE" pertains to the anti-urination claim to which the "OUTDOORS" directions apply. The garbage and garbage can claim is an anti-feeding claim.

Note that during Phase V of the reregistration process for the active ingredient methyl nonyl ketone, it is anticipated that product performance data will be required to support all claims for products containing this active ingredient.

Sincerely,

Robert A. Forrest
Product Manager (14)
Insecticide-Rodenticide Branch
Registration Division

ACCEPTED
with COMMENTS
in EPA Letter Dated:

FEB 27 1992

Under FIFRA Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

51793-169

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a
manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

Do not apply directly to foliage of shrubs or to ornamental,
soft-bodied plants.

GENERAL: For both indoor and outdoor situations, the most
effective control for a pet is the sharply spoken word backed
up with disciplinary action. This repellent product should
be used in conjunction with training.

INDOORS: To break your pet of undesirable habits (such as
sleeping on furniture, rugs, and other forbidden areas in
your home): Spray the article of furniture, rugs, etc.,
lightly with this product so that the area or object is
slightly moistened. Before spraying extensive areas of rugs,
fabrics or plastics, test the effect of this product by first

BEST AVAILABLE COPY

treating a small inconspicuous area. This product may stain or soften some fabrics or plastics. An alternate method to avoid possible damage is to spray a piece of cloth lightly and place it on the object or area in your home to be protected. Repeat daily, or as necessary, until undesirable habit is broken.

OUTDOORS: To prevent your pet, or stray animals, from soiling flower beds, areas of lawn, trees, shrubbery or evergreen: Spray the edges of flower beds, trunks of trees, the bases of shrubbery and evergreens, patches of lawn, etc., lightly every day, or every other day, with this product. Stray animals are frequently attracted to areas where urine or feces have been deposited. First, remove any droppings, then spray the spot with this masking odor. Re-apply as often as necessary until undesirable habits of your pet or stray animals are changed.

Garbage and Garbage Cans: Treat bags of garbage and garbage cans on all surfaces until wet. Allow to dry before handling. Re-apply as necessary.

Note: This product is not likely to break the established urination patterns of dogs unless used as a training aid.

STORAGE AND DISPOSAL

Storage: Store only in original container, in a dry place inaccessible to children and pets.

Disposal: Do not re-use empty container. Rinse thoroughly, securely wrap in newspaper, and discard in trash.

PRECAUTIONARY STATEMENTS

CAUTION

Hazards To Humans and Domestic Animals

Harmful if swallowed or absorbed through the skin. Avoid contact with skin. Wash hands with soap and water after spraying.

Do not use in commercial food processing or preparation areas. In the home, all food processing surfaces and utensils should be covered during treatment. Cover exposed food. Do not apply to food crops.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Keep away from heat or open flame.
