OFFICE OF
PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES

SUBJECT: Label Amendment Submission of 08/20/93 in Response to PR Notice 93-7
EPA Reg. No. 51793-170
ELITE ROTENONE FIRE ANT KILLER - R100

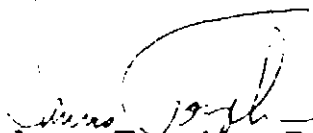

Dear Registrant:

The labeling cited above and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, successfully **REMOVES THE PRODUCT FROM THE SCOPE** of PR Notice 93-7 once the comments (if any) on the attached sheet are addressed. Other than the alterations (if any) listed on the attached sheet, no further alterations to the labeling are necessary to reflect the requirements of the Worker Protection Standard.

Since your amendment proposes to delete uses directly and/or to delete uses implicitly through the use of exclusionary statements, the Agency will publish in the Federal Register a notice of receipt of your amendment to delete uses, as required by section 6(f)(1) of FIFRA. The Agency will defer action for 90 days from the date of the Federal Register notice to give affected minor users an opportunity to try to persuade you to retain the uses(s). When the comment period has expired, the Agency will approve the amendment unless you have withdrawn it, and stamp the amended labeling "accepted." Your stamped-accepted labeling will then be sent to you.

As described in Supplement A of PR Notice 93-11 (self-verification option), you may sell and distribute product bearing the submitted labeling before you receive a copy of your stamped-accepted labeling. Note that your registration is not amended until the comment period required by section 6(f)(1) of FIFRA has expired and the Agency has approved the amendment. Therefore, you may withdraw your proposed amendment at any time during the comment period and until you receive your stamped-accepted labeling.

Sincerely,

James Tompkins, Deputy Chief
Registration Support Branch
Registration Division (7505W)

DIRECTIONS FOR USE

**It is a violation of Federal Law to use this product in a
manner inconsistent with its labeling.**

Fire Ant Drench: For use on lawns, gardens, grounds around buildings, fields, wasteland, golf courses, recreational areas and campgrounds.

For control of an individual fire ant mound measuring 2-9 inches (5-25 cm) high and 5-21 inches (12-60 cm) in diameter, mix 1 tablespoon, 1/2 ounce (14.6 ml) of Elite Rotenone Fire Ant Killer in 2 gallons of water (7.57 L) and thoroughly agitate until completely mixed.

Apply this mixture to the undisturbed mound by first using some on the dome to soften the crust. Then use some to completely soak the perimeter. The remainder should be poured from a height of about 3 ft. (1m) so as to break into the dome and allow the mixture to flow into the underground ant tunnels. Repeat in 7-10 days or as necessary. For larger mounds, apply greater volumes of diluted material.

STORAGE AND DISPOSAL

Storage: For containers 1 gallon and under: Store in a locked storage area away from heat or open flames.

Pesticide Disposal: For containers over 1 gallon: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environment Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: For containers 1 gallon and under: Do not reuse empty container. Wrap and put in trash. For containers over 1 gallon: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

PRECAUTIONARY STATEMENT WARNING HAZARDS TO HUMANS AND DOMESTIC ANIMALS

May be fatal if swallowed. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating or smoking.

STATEMENT OF PRACTICAL TREATMENT

- If Swallowed:** Call a physician or Poison Control Center. Do not induce vomiting. This product contains aromatic petroleum solvent. Aspiration may be a hazard.
- If In Eyes:** Flush with plenty of water. Get medical attention if irritation persists.
- If On Skin:** Wash with plenty of soap and water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

FLAMMABLE: Do not use or store near heat or open flame. Flashpoint minimum 45°F (7°C)
