**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**USE ONLY IN WELL VENTILATED AREAS.**

**HOLD BOTTLE IN UPRIGHT POSITION WHEN SPRAYING**

**CATS and DOGS**

Cover animal's eyes with hands and with a firm stroke to get a proper spray mist, spray head, ears and chest until damp. With fingertips rub into face around mouth, nose, and eyes. Then spray neck, middle and hind quarters, finishing legs last. For best penetrator of spray to the skin, direct spray against the natural lay of the hair. On long-haired dogs, rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed.

**PUPPIES and KITTENS**

Treat same as cats and dogs except nursing puppies and kittens. Spray only along back or on your fingertips and rub in with your fingertips.

**PETS SLEEPING QUARTERS**

Spray around baseboards, windows, door frames, wall cracks and local area of floors. If mosquitoes, gnats or flies are present, spray lightly into the air. Repeat as needed. The pet's bedding should be sprayed, making sure the area beneath the bedding is sprayed too. After spray has dried, remove old bedding and replace with fresh bedding. Treat pets with a registered Flea and Tick Control product before allowing them to enter treated area.

**HORSES**

Use full strength to control stable flies, horse flies, deer flies, face flies, gnats and mosquitoes. Apply to face, legs, flanks, top line and other body areas commonly attacked by flies. Do not wet horses' skin with excessive spray. After application, brush thoroughly to bring out bright sheen on the coat. Repeat treatment as needed.

**STORAGE AND DISPOSAL**

**Storage:** Do not use or store near heat or open flame.

**Disposal:** Do not use empty container. Wrap container and put in trash collection.

## Directions for Liquid Dispensing Comb

### KILLS FLEAS, TICKS AND LICE ON CONTACT

The teeth of the comb are made of a porous nylon fiber much like a felt-tip pen. By simply combing your pet, the special flea and tick killing liquid saturates the comb's sturdy teeth and coats the animal's skin, fur and hair, killing fleas and ticks on contact. The special liquid also contains agents to help keep your pet's coat smooth and shiny, so your pet benefits from a healthy grooming, too. Comb is safe and gentle to be used daily.

### DIRECTIONS FOR USE

Remove plug. Holding comb level, slowly add liquid thorough filling hole until wick is visibly damp. Do not overfill. Replace plug and allow a few minutes for teeth to become moistened. Comb pet thoroughly with a slow grooming motion. Be sure that both tips and sides of the teeth contact the skin, inner fur, and hair. For pets with thick fur, groom by pushing back fur and combing around roots. After use, wipe teeth gently with a dry paper towel or tissue. Store in a sealed plastic bag.
