It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

As a precaution, a bland ophthalmic ointment should be placed in the eyes prior to bathing to prevent possible irritation.

Thoroughly wet the entire hair-coat with warm water and then apply enough shampoo to make a lather and work thoroughly into hair-coat. For best therapeutic effects, allow lather to remain in contact with skin for five minutes before rinsing. Rinse thoroughly. Repeat semiweekly or weekly, depending on severity of affliction and response.
