 Biopesticides and Pollution Prevention Division
 (7511c) 401 M St., S.W.
 Washington, D.C. 20460

EPA Reg. Number:

51934-3

Date of Issuance:

SEP 4 1998

Term of Issuance:

Unconditional

Name of Pesticide Product:

Japanese Beetle Combo Bait

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Bill Lingren
 Trece, Incorporated
 1143 Madison Lane
 Salinas, CA 93912

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec.3(c) (5) provided you:

1. Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec.3(c) (5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the labeling changes below before you release the product for shipment:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 51934-3."
 - b. Delete the statement "Proven Results in Government Tests."
 - c. Add to the ingredient statement the amount of pheromone in mg per dispenser.
 - d. The statements "Helps protect roses, grapes, fruit trees, and vegetables" and "traps up to 5 times more beetles than single lure traps" must be relocated to either before or after the Directions for Use section of your label.
3. Submit five copies of the revised final printed label for the record.

(Continued on page 2)

Signature of Approving Official:

Date:

2 75

Page 2

If these conditions are not complied with, this registration will be subject to cancellation in accordance with FIFRA sec 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Unconditional registration does not eliminate the need for continual reassessment of a pesticide. If EPA determines, at any time, that additional data are required to maintain in effect, an existing registration, the Agency will require submission of such data under Section 3(c)(2)(B) of FIFRA.

A stamped copy of the label is enclosed for your records.

Sincerely,

for Janet L. Andersen, Director
Biopesticides and Pollution
Prevention Division (7511C)

BEFORE USING, READ ENTIRE DIRECTIONS ENCLOSED

PRECAUTIONARY STATEMENT

Hazards to humans and domestic animals

CAUTION: Avoid contact with skin and eyes. In case of accidental contact, wash thoroughly with soap and water. If irritation occurs, seek medical attention.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For outdoor residential use.

Traps up to 5 times more beetles than single lure traps.

Helps protect roses, grapes, fruit trees, and vegetables.

Open the green plastic lure cap and place it upside down in the cut-out space between the vanes of the trap.

For maximum effectiveness, use the suggested number of traps below:

Suggested Number of Traps	Size of Use Area
1	Less than 1/8 acre
2	1/8 to 1/4 acre
3	1/4 - 1/2 acre
4	1/2 acre
*	Over 1/2 acre
* 1 trap every 150 - 200 feet along perimeter	

Kill the trapped beetles by immersing the cage in hot water. Dump the dead beetles into the garbage or bury them in the garden.

If the trapped beetles are trapped in a disposable bag, merely close and dispose of bag.

How It Works

Draws Japanese Beetles into the trap away from valuable ornamentals, flowers and shrubs. Beetles strike vane, fall into bag or container, then die.

STORAGE AND DISPOSAL

Storage: Do not contaminate water, food, or feed by storage or disposal. Store in a cool dry place. Do not open until ready to use.

DISPOSAL: When lure element no longer has detectable odor, wrap and dispose of it in regular trash collection.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
