U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 M St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
51934-7

Date of Issuance:
JUL 18 2003

**NOTICE OF PESTICIDE
Registration**

Term of Issuance:
Conditional Registration

Name of Pesticide Product:
TRECE LIQUID ANT KILLER BAIT

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

**TRECE, INC.
1031 C INDUSTRIAL STREET
SALINAS, CA 93901**

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label change:
 - a. Revise the EPA Registration Number to read "EPA REG. NO. 51934-7"
3. You must submit full results of 1 year storage stability (830.6317) and corrosion characteristics (830.6320) studies. Refer to the Product Properties Test Guidelines.
4. You must label the bait station with the following information: statement of active ingredient(s), signal word, child hazard warning, EPA Registration Number, and a statement referring the user to the complete package label.
5. Qualify all "outdoor" use to make clear outdoor use is adjacent to the home or building.

Signature of Approving Official:

Ann Sebold for Marvyn Johnson

Date:

6. Submit four (4) copies of the revised final printed labels for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Enclosed is a copy of your label Accepted with Comments.

2.3 fl. oz (69 cc)/0.39 fl.oz (11.5 cc) each

Trece Liquid Ant Killer Bait

Trece Liquid Ant Killer Bait is an attractive and uniquely designed ant control system. The feeding station will not leak or spill when used as directed. The liquid bait attracts and kills ants inside and outside the home. Can be used in kitchens

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

- Remove any food sources, dirty dishes, and utensils from areas where ants are a problem.
- Open the box and remove the ant feeding stations.
- Gently, shake the bait station 2-3 times to disperse the liquid bait in the feeding station.
- Tear off the protective tab from the end of the feeding station. (Illustration 2)
- Place feeding station near active trails or where ants are seen, such as under sinks, in cabinets, along windowsills, along baseboards, and outdoor areas around the home where ants may enter. (Illustration 3)
- Use no more than 6 stations in a room. Avoid contamination of feed and foodstuff.
- Replace when ants have consumed all the bait from the feeding station. Continue to replace feeding stations as long as ants are a problem.
- Bait stations may need to be moved to a new location as new ant trails and entry points inside the home are found.

How it works:

Trece Liquid Ant Killer Bait is a unique ant bait system. The liquid bait is accessible to ants, but will not spill or leak from the bait station. Initially, large number of ants will feed at the stations. The bait is consumed by worker ants and carried back to the colony. Always ensure that fresh bait is available.

Additional Treatment Tip or Integrated Pest Management (IPM) Treatment Tip:

To help keep ants from entering the home, treat outdoors along the foundation of the house with a product registered to control ants. Thoroughly treat any area where ants are seen entering the home. Caulk or seal entry points such as around windows, doors, water pipes, and other areas where ants may enter. Always follow label directions.

DO NOT USE in edible product areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Avoid contamination of feed and foodstuffs. Place bait in areas inaccessible to children and pets.

STORAGE AND DISPOSAL STATEMENT

STORAGE: Store in cool dry place. Do not store where children or animals may gain access.

DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
