U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Biopesticides and Pollution Prevention Division (7511P)
1200 Pennsylvania Avenue NW
Washington, DC 20460

EPA Reg. Number:

51934-11

Date of Issuance:

NOV 07 2011

Term of Issuance:

Unconditional

Name of Pesticide Product:

Cidetrak® CM-OFM Combo

NOTICE OF PESTICIDE:

- Registration
 - Reregistration
- (under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Catherine M. Byrd
Trece, Inc.
c/o Wagner Regulatory Associates, Inc.
P.O. Box 640 Lancaster Pike, Suite 9
Hockessin, Delaware 19707

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This registration does not eliminate the need for continual reassessment of the pesticide. If EPA determines at any time that additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under section 3(c)(2)(B) of FIFRA. This product is unconditionally registered in accordance with FIFRA Sec. 3(c)(5) provided you:

1. Submit and/or cite all data required for registration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Revise the EPA Registration Number to read, "EPA Reg. No. 51934-11."
3. Submit within 1 year after the Date of Registration an acceptable data package addressing the Guideline Studies: Storage Stability (OCSP Test Guideline 830.6317) and Corrosion Characteristics (OCSP Test Guideline 830.6320).
4. Submit two (2) copies of the final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

A stamped copy of the label is enclosed for your records.

Signature of Approving Official:

W. Michael McDavit

CIDETRAK[®] CM-OFM COMBO

A MATING DISRUPTANT FORMULATION FOR CODLING MOTH (*Cydia pomonella*), HICKORY SHUCKWORM (*Cydia caryana*), ORIENTAL FRUIT MOTH (*Grapholita molesta*), MACADAMIA NUT BORER (*Cryptophlebia ambrodelta*), KOA SEEDWORM (*Cryptophlebia illepidia*)

ACTIVE INGREDIENTS:

| | | |
|------|-------------------------------|--------|
| CM: | (8E,10E)-8,10-dodecadien-1-ol | 4.60 % |
| OFM: | Z-8-Dodecen-1-yl Acetate* | 1.88% |
| | E-8-Dodecen-1-yl Acetate* | 0.12% |
| | Z-8-Dodecen-1-ol* | 0.02% |

OTHER INGREDIENTS: 93.38 %

TOTAL: 100.00 %

ACCEPTED

NOV 07 2011

NET CONTENTS:

Dispensers per package; 400 units
One dispenser contains: 331 mg, active ingredient

EPA Registration No. 51934-~~X~~11
EPA Establishment No. 51934-OK-1

Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended, for
the pesticide registered under
EPA Reg. No. 51934-11

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, and clothing. Wear chemical resistant gloves and protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove contaminated clothing and wash before reuse.

| FIRST AID | |
|-------------------------|--|
| IF ON SKIN OR CLOTHING: | <ul style="list-style-type: none"> - Take off contaminated clothing. - Rinse skin immediately with plenty of water for 15-20 minutes. - Call poison control center or doctor for treatment advice. |
| IF IN EYES: | <ul style="list-style-type: none"> - Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. - Call poison control center or doctor for treatment advice. |
| HOT LINE NUMBER: | Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-866-785-1313 for emergency medical treatment information. |

ENVIRONMENTAL HAZARDS

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of product, wash water, or when cleaning equipment.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE USING

CIDETRAK® CM-OFM COMBO disrupts the mating communication between adult male and female moths, reduces fertile egg laying, suppresses subsequent larval infestation, and may reduce the need for applying insecticides.

For maximum effectiveness, growers should remove and destroy infested fruit from trees and the ground. Growers should maintain accurate records from monitoring of CM and OFM adult populations and larval damage within their orchards. Consult your local extension specialist, certified crop advisor, or Trece representative for assistance in designing the best CIDETRAK® CM-OFM COMBO program for your orchard.

| | |
|----------------|--|
| Crop | Apple, Pear, Walnut, Pecan, Quince, and other pome fruits; Peaches, Nectarines, Apricots, Plums, Cherries, and other stone fruits; Almonds, Macadamia, and other tree fruit crops. |
| Targeted Pest | Codling Moth (<i>Cydia pomonella</i>), Hickory Shuckworm (<i>Cydia caryana</i>), Oriental Fruit Moth (<i>Grapholita molesta</i>), Macadamia nut borer (<i>Cryptophlebia ambrodelta</i>), Koa seedworm (<i>Cryptophlebia illepidia</i>). |
| Rate | Minimum of 200-220 dispensers per acre (500-550 dispensers per hectare) or 46-51 gm CM a.i. and 20-22 gm OFM a.i. per acre per application (115-127 gm CM a.i. and 51-56 gm OFM a.i. per hectare). Maximum of 400-440 dispensers per acre (1000-1100 dispensers per hectare) or 92-101 gm CM a.i. and 40-44 gm OFM a.i. per acre per application (230-253 gm CM a.i. and 101-111 gm OFM a.i. per hectare). Apply the maximum dispenser rate to all orchard borders, to orchards that are moderately to heavily infested with CM and OFM, or to borders of adjacent untreated orchards. Do not exceed 150 grams of each active ingredient per acre per year. |
| Application | Attach dispensers securely to lateral branches in upper 14" or 35 cm of tree canopy. Attach the dispensers from the ground using a pole applicator or from a moving trailer. |
| Timing | Apply prior to moth emergence in early spring. Monitor moth activity using PHEROCON® IIB or PHEROCON VI traps and lures. Begin monitoring in early spring and continue throughout the season to assess treatment effectiveness. A second application may be necessary in areas with a long field season (more than 120 days) based on monitoring results, prior to subsequent CM and OFM flights. Consult your field manager, local extension office for advise on proper timing and retreatment. Note - CIDETRAK® CM-OFM COMBO will not prevent crop damage from immigration of mated females moths into treated orchards. Nearby (500 yards) untreated Codling Moth and Oriental Fruit Moth hosts, such as apple, walnut, pear, quince, crabapple, plum, peaches, nectarines, almonds or other stone fruit and nut crops, can be a source of these mated females. Treatment with CIDETRAK CM-OFM COMBO is recommended only when all host crops within or near treated blocks have been treated with CIDETRAK® CM-OFM COMBO and recommended insecticides. |
| Treatment Tips | CIDETRAK® CM-OFM COMBO suppresses mating of Codling Moth, Hickory Shuckworm, Oriental Fruit Moth, Macadamia Nut Borer, and Koa Seedworm. Immigration of mated female moths from adjacent, infested orchards can reduce the level of control. Area-wide treatment of the entire host plant block is the most effective strategy. To supplement CIDETRAK® CM-OFM COMBO, use insecticides to control high populations. Monitor all pest populations to determine timely use of insecticides. To manage immigration and high population pressures, consider: 1. Treatment of external sources of infestation with CIDETRAK® CM-OFM COMBO 2. Treatment of external sources of infestation with an insecticide 3. Treatment of pheromone treated orchard with insecticide Consult your local extension specialist, certified crop advisor, or Trece representative for local field condition management strategies. |

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal

| | |
|---------------------|--|
| Pesticide Storage: | Store unopened original package in a dry location at a temperature below 40° F. |
| Pesticide Disposal: | Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility. |
| Container Disposal: | Dispose of empty containers and foil envelopes in trash. |

WARRANTY AND LIMITATION OF DAMAGES

To the extent consistent with applicable law, all statements concerning the use of this product apply only when used as directed as stated on this product label. Trece Inc. warrants that the product conforms to this label and under normal conditions of use according to this label, is reasonably fit for the stated label purpose. The manufacturer makes no express or implied warranties of merchantability or fitness for a purpose concerning this product, or its use, extending beyond the label. Under no circumstance will Trece Inc. be liable for damage (special, consequential or incidental) that result from the handling, storage, or use of this product which is not in compliance with the label. Read all label directions carefully.

Buyer's exclusive remedy, should this product be defective, is replacement of the product, or if this is impractical, a purchase price refund.
