Ms. Victoria Smith Agent Trécé, Inc. c/o Wagner Regulatory Associates, Inc. P.O. Box 640 Hockessin, Del. 19707

Subject: Non-PRIA (Pesticide Registration Improvement Act) Labeling Amendment – Adding

alternate brand name and application instructions Product Name: CIDETRAK® CM-OFM COMBO

EPA Registration Number: 51934-11 EPA Application Date: 07/28/2022 Action Case Number: 00381048

Dear Ms. Smith:

The amended labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

The alternate brand name: -CIDETRAK®CM-OFM COMBO MESO has been added to the registration, and our records have been updated accordingly. This approval does not affect any terms or conditions that were previously imposed on this registration. You continue to be subject to existing terms or conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release this product for shipment with the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR § 152.3.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the U.S. Environmental Protection Agency (EPA). If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Page 2 of 2 EPA Reg. No. 51934-11 Action Case No. 00381048

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Nina Naimy via email at naimy.nina@epa.gov.

Sincerely,

James Parker, Team Leader Biochemical Pesticides Branch Biopesticides and Pollution Prevention Division (7511M) Office of Pesticide Programs

Enclosure

ACCEPTED

Sep 21, 2022
Under the Federal Insecticide, Fungicide and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 51934-11

CIDETRAK® CM-OFM COMBO [ABN: CIDETRAK® CM-OFM COMBO MESO]

A MATING DISRUPTANT FORMULATION FOR CODLING MOTH (*Cydia pomonella*), HICKORY SHUCKWORM (*Cydia caryana*), ORIENTIAL FRUIT MOTH (*Grapholita molesta*). MACADAMIIA NUT BORER (*Cryptophlebia ambrodelta*), KOA SEEDWORM (*Cryptophlebia illepida*)

ACTIVE INGREDIENTS:

CM: (8*E*,10*E*)-8,10-dodecadien-1-ol 4.60 %

OFM: Z-8-Dodecen-1-yl Acetate* 1.88% E-8-Dodecen-1-yl Acetate* 0.12%

Z-8-Dodecen-1-ol* 0.02%

OTHER INGREDIENTS: 93.38 %

TOTAL: 100.00 %

NET CONTENTS:

[CIDETRAK® CM-OFM COMBO Dispensers per package; 400 units

One dispenser contains: 331 mg, active ingredient]

[CIDETRAK® CM-OFM COMBO MESO

Dispensers per package; 40 units

One dispenser contains: 2,269 mg, active ingredient]

EPA Registration No. 51934-11 EPA Establishment No. 51934-OK-1

KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, and clothing. Wear chemical resistant gloves and protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove contaminated clothing and wash before reuse.

FIRST AID		
IF ON SKIN OR CLOTHING:	 Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice. 	
IF IN EYES:	 Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice. 	
HOT LINE NUMBER:	Have the product container or label with you when calling a poison control center or going to a doctor for treatment. You may also contact 1-866-785-1313 for emergency medical treatment information.	

ENVIRONMENTAL HAZARDS

DO NOT apply directly to water, to areas where surface water is present or to intertidal areas below the mean high-water mark. **DO NOT** contaminate water when disposing of product, wash water, or when cleaning equipment.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE USING

CIDETRAK® CM-OFM COMBO disrupts the mating communication between adult male and female moths, reduces fertile egg laying, suppresses subsequent larval infestation, and may reduce the need for applying insecticides.

For maximum effectiveness, growers should remove and destroy infested fruit from trees and the ground. Growers should maintain accurate records from monitoring of CM and OFM adult populations and larval damage within their orchards. Consult your local extension specialist, certified crop advisor, or Trece, Inc. representative for assistance in designing the best CIDETRAK® CM-OFM COMBO program for your orchard.

_	
Crops	Apple, Pear, Walnut, Pecan, Quince, and other pome fruits; Peaches, Nectarines, Apricots, Plums,
	Cherries, and other stone fruits; Almonds, Macadamia, and other tree fruit crops.
Targeted Pests	Codling Moth (Cydia pomonella), Hickory Shuckworm (Cydia caryana), Oriental Fruit Moth
	(Grapholita_molesta), Macadamia nut borer (Cryptophlebia ambrodelta), Koa seedworm
	(Cryptophlebia illepida).
[CIDETRAK® CM-	[Minimum of 200-220 dispensers per acre (500-550 dispensers per hectare) or 46-51 gm CM a.i.
OFM COMBO	and 20-22 gm OFM a.i. per acre per application (115-127 gm CM a.i. and 51-56 gm OFM a.i. per
Rate]	hectare).
	Maximum of 400-440 dispensers per acre (1000-1100 dispensers per hectare) or 92-101 gm CM a.i.
	and 40-44 gm OFM a.i. per acre per application (230-253 gm CM a.i. and 101-111 gm OFM a.i. per
	hectare).
	Apply the maximum dispenser rate to all orchard borders, to orchards that are moderately to heavily
	infested with CM and OFM, or to borders of adjacent untreated orchards.
_	DO NOT exceed 150 grams of each active ingredient per acre per year.]
[CIDETRAK® CM-	[Attach dispensers securely to lateral branches in upper 14" or 35 cm of tree canopy. Attach the
OFM COMBO	dispensers from the ground using a pole applicator or from a moving trailer.]
Application]	
[CIDETRAK® CM-	[Depending on the population abundance, use a minimum of 30 dispensers per acre (75 dispensers
OFM COMBO	per hectare) to a maximum of 38 dispensers per acre (95 dispensers per hectare). For example,
MESO Rate]	apply 32 dispensers per acre (80 dispensers per hectare) for moderate populations. Apply the
	maximum dispenser rate to all orchard borders including orchards that are heavily infested with CM
	and OFM, adjacent to an untreated orchard, or otherwise at risk.
	DO NOT exceed 150 gm a.i. per acre per year.]
[CIDETRAK® CM-	[Place the dispenser on the rotating hook, place the hook into the applicator tip, and hook the
OFM COMBO	dispenser on the tree from the ground using a pole applicator, a moving trailer, a hydraulic man-lift
MESO	or other safe means. Distribute dispensers in a grid pattern within the orchard except on the borders.
Application]	Attach dispensers securely to lateral branches at 10%-20% of the distance between the trunk and
	the branch terminal in the upper 1/5th of the canopy.]
Application	Apply prior to moth emergence in early spring. Monitor moth activity using PHEROCON® IIB or
Timing	PHEROCON® VI traps and lures. Begin monitoring in early spring and continue throughout the
	season to assess treatment effectiveness.
	A account application may be necessary in arose with a long field accoon (more than 400 down)
	A second application may be necessary in areas with a long field season (more than 120 days)
	based on monitoring results, prior to subsequent CM and OFM flights. Consult your fieldman or local
	extension office for advice on proper timing and retreatment.
	NOTE: CIDETRAK® CM-OFM COMBO will not prevent crop damage from immigration of mated
	female moths into treated orchards. Nearby (500 yards) untreated Codling Moth and Oriental Fruit
	Moth hosts, such as apple, walnut, pear, quince, crabapple, plum, peaches, nectarines, almonds or
	Livioni mosts, such as apple, wantur, pear, quince, crabapple, plum, peaches, nectarnes, almonds of

	other stone fruit and nut crops, can be a source of these mated females. Treatment with CIDETRAK CM-OFM COMBO® is recommended only when all host crops within or near treated blocks have been treated with CIDETRAK® CM-OFM COMBO and recommended insecticides.
Treatment Tips	CIDETRAK® CM-OFM COMBO suppresses mating of Codling Moth, Hickory Shuckworm, Oriental Fruit Moth, Macadamia Nut Borer, and Koa Seedworm. Immigration of mated female moths from adjacent, infested orchards can reduce the level of control. Area-wide treatment of the entire host plant block is the most effective strategy. To supplement CIDETRAK® CM-OFM COMBO, use insecticides to control high populations. Monitor all pest populations to determine timely use of insecticides. To manage immigration and high population pressures, consider: 1. Treatment of external sources of infestation with CIDETRAK® CM-OFM COMBO. 2. Treatment of external sources of infestation with an insecticide. 3. Treatment of pheromone treated orchard with insecticide. Consult your local extension specialist, certified crop advisor, or a Trece, Inc. representative for local field condition management strategies.

STORAGE AND DISPOSAL DO NOT contaminate water, food, or feed by storage and disposal		
Pesticide Storage:	Store unopened original package in a dry location at a temperature below $40^{\rm o}{\rm F}.$	
Pesticide Disposal:	Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.	
Container Disposal:	Dispose of empty containers and foil envelopes in trash.	

WARRANTY AND LIMITATION OF DAMAGES

To the extent consistent with applicable law, all statements concerning the use of this product apply only when used as directed as stated on this product label. Trece Inc. warrants that the product conforms to this label and under normal conditions of use according to this label, is reasonably fit for the stated label purpose. The manufacturer makes no express or implied warranties of merchantability or fitness for a purpose concerning this product, or its use, extending beyond the label. Under no circumstance will Trece Inc. be liable for damage (special, consequential or incidental) that result from the handling, storage, or use of this product which is not in compliance with the label. Read all label directions carefully.

Buyer's exclusive remedy, should this product be defective, is replacement of the product, or if this is impractical, a purchase price refund.
