APR 09 2014

Subject: Trece, Inc.; CIDETRAK® DA MEC™, EPA Reg. No. 51934-12; Amendment to Add Agricultural Use Box per CDPR Requirement; D# 488131, Application Dated 1/14/14

Dear Ms. Wagner:

The amendment referred to above, submitted in connection with registration under FIFRA section 3(c)(5), is acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit two (2) copies of your final printed labeling before you release the product for shipment. Final printed labeling means the label or labeling of the product when distributed or sold. Clearly legible reproductions or photo reductions will be accepted for unusual labels, such as those silk-screened directly onto glass or metal containers or large bags or drum labels.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(b). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

If you have any questions contact Chris Pfeifer at 703-308-0031 or by email at: pfeifer.chris@epa.gov.

Sincerely,

Linda Hollis, Branch Chief
Biochemical Pesticides Branch
Biopesticides and Pollution
Prevention Division (7511P)

During other times, call the poison control center 1-800-222-1222. For additional information, you may also contact Trece Inc. at 1-866-785-1313.</p>

**Precautionary Statements
Hazards to Humans and Domestic Animals**

Caution. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear the appropriate PPE. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment (PPE)

Applicators and other handlers must wear:

- Long-sleeved shirt and long pants
- Chemical resistant gloves made of any waterproof material such as nitrile rubber, butyl rubber, neoprene rubber, barrier laminate, polyethylene, polyvinyl chloride (PVC), or Viton.
- Shoes plus socks
- Protective eyewear

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should:

- Remove clothing/PPE immediately if pesticide gets underneath clothing. Then, shower cleaning skin thoroughly with soap and water and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves with soap and water before removing.
- Remove and wash contaminated clothing before reuse. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirement specific to your State and Tribe, consult the State/Tribal agency responsible for pesticide regulation.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE USING.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protection equipment (PPE), notification to workers, and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 4 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:

- Long-sleeved shirt and long pants
- Chemical-resistant gloves made of any waterproof material such as nitrile rubber, butyl rubber, neoprene rubber, barrier laminate, polyethylene, polyvinyl chloride (PVC), or Viton.
- Shoes plus socks
- Protective eyewear

CIDETRAK® DA MEC is enhancement for mixing with insecticides or Codling Moth pheromone formulations intended to be applied to apple, pear and walnut orchards for control of codling moth, *Cydia pomonella*.

Crop	Apple, Pear, Walnut, Pecan, Quince, and other pome fruits
Targeted Pest	Codling Moth (<i>Cydia pomonella</i>), Hickory Shuckworm (<i>Cydia caryana</i>).
Rate	Mix CIDETRAK DA MEC with prescribed and/or lower label rates of a suitable insecticide or CM pheromone for control of codling moth, <i>Cydia pomonella</i> , only if such reduced rates of the insecticide or CM pheromone have been shown effective by industry, government and/or university scientists. Use CIDETRAK DA MEC at a rate of 12 to 70 mls/acre (0.6-3.5 gms acre) or 30 to 175 mls/hectare (1.5-8.75 gms/hectare). Apply CIDETRAK DA MEC usually at a rate of 12 mls (0.6 gms) per acre or 30 mls (1.5 gms) per hectare in a mixture only, with a suitable, registered insecticide or CM pheromone and water. Do not exceed 8 applications of CIDETRAK DA MEC at 12 mls (0.6 gms a.i.) product per acre or 30 mls (1.5 gms a.i.) per hectare per application or a total seasonal amount of 96 mls (4.8 gms a.i.) per acre or 240 mls (12 gms a.i.) per hectare.

Application	Apply the foregoing mixture in a full coverage spray, according to directions for use of the insecticide or pheromone. Coverage should be complete but do not allow "run-off."
Monitoring/Timing	Always monitor for codling moth presence and phenology with PHEROCON® CM-DA COMBO + AA lures in CIDETRAK DA MEC + insecticide or pheromone treated orchards. Time applications of CIDETRAK DA MEC + insecticide or CM pheromone mixtures according to the directions of the manufacturer of the insecticide or CM pheromone with which CIDETRAK DA MEC is mixed, local extension agents and other authorities. Repeat applications of CIDETRAK DA MEC + insecticide or CM pheromone mixtures according to directions for insecticide.
Chemical Compatibility	Check physical compatibility of CIDETRAK DA MEC + insecticide or CM pheromone formulations before mixing in spray tanks. No plant phytotoxicity has been observed with mixtures of CIDETRAK DA MEC. But one may check plant phytotoxic response to mixtures of CIDETRAK DA MEC + insecticide or CM pheromone formulations by treating 4-5 plants or small area of foliar surface of plantings with chosen mixtures. Observe the effect over 2 days.
Spray/Sprayer Preparation	Shake CIDETRAK DA MEC vigorously before measuring for spray solution. Fill sprayer half full of water. Start physical or by-pass agitation on spray application equipment. Carefully measure and pour or place insecticide or CM pheromone formulation into the spray tank. Carefully measure and pour the required amount of CIDETRAK DA MEC into the spray tank. Fill spray tank to the required level and initiate application.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry place, out of direct sunlight, and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL:

Nonrefillable container (equal to or less than 5 gallons): Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling, if available or reconditioning, or puncture and dispose of in a sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

WARRANTY AND LIMITATION OF DAMAGES

All statements concerning the use of this product apply only when used as directed as stated on this product label. Trece Inc. warrants that the product conforms to this label and under normal conditions of use according to this label, is reasonably fit for the stated label purpose. To the extent consistent with applicable law, the manufacturer makes no express or implied warranties of merchantability or fitness for a purpose concerning this product, or its use, extending beyond the label. To the extent consistent with applicable law, under no circumstance will Trece Inc. be liable for damage (special, consequential or incidental) that result from the handling, storage, or use of this product which is not in compliance with the label. Read all label directions carefully.

To the extent consistent with applicable law, buyer's exclusive remedy, should this product be defective, is replacement of the product, or if this is impracticable, a purchase price refund.
