 Office of Pesticide Programs
 Biopesticides and Pollution Prevention Division (7511P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

51934-29

Date of Issuance:

5/3/2023

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Cidetrak® CRS MESO

Name and Address of Registrant (include ZIP Code):

Trece, Inc.
 7569 Highway 28 W
 Adair, OK 74330

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product, always refer to the above EPA Registration Number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA or the Act).

Registration is in no way to be construed as an endorsement or recommendation of this product by the U.S. Environmental Protection Agency (EPA). In order to protect health and the environment, the Administrator, on his or her motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under the Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration or registration review of your product when the EPA requires all registrants of similar products to submit such data.
2. Submit Storage Stability and Corrosion Characteristics (Guidelines 830.6317 and 830.6320) data as these data requirements are not satisfied. A one-year study is required to satisfy these data requirements. You have 18 months from the date of this registration to provide these data to the EPA.
3. Make the following labeling change before you release this product for shipment:
 Revise the EPA Registration Number to read, "EPA Reg. No. 51934-29."
4. Submit one (1) copy of the final printed labeling for the record before you release this product for shipment.

Signature of Approving Official:

Andrew Bryceland, Team Leader
 Biochemical Pesticides Branch
 Biopesticides and Pollution Prevention Division (7511P)
 Office of Pesticide Programs

Date:

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6. A stamped copy of the labeling is enclosed for your records. Please also note that the record for this product currently contains the following acceptable Confidential Statements of Formula (CSF):

- Basic CSF dated 02/10/2023

If you have any questions, please contact Susannah Powell via email at powell.susannah@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Andrew C. Bryceland". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if inhaled or absorbed through the skin. Causes moderate eye and skin irritation. Avoid breathing vapor. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear:

- Long-sleeved shirt and long pants
- Waterproof gloves
- Shoes plus socks

Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should:

- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS

DO NOT apply directly to water, or to areas where surface water is present or to intertidal areas below the mean highwater mark. **DO NOT** contaminate water when disposing of equipment wash water or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE USING.

CIDETRAK® CRS MESO is a dispenser system that contains behavior modifying pheromones in a polymeric matrix. It disrupts the mating communication between adult California Red Scales.

For maximum effectiveness, remove and destroy infested fruit from trees and the ground. Maintain accurate records of CRS adult population monitoring and damage within treated orchards. Consult your local extension specialist, certified crop advisor, or Trécé representative for assistance in designing the best **CIDETRAK® CRS MESO** program for your orchard.

Crop	Oranges, clementines, lemons, limes, tangerines, grapefruit, other citrus crops, and any other crop where CRS is a pest.
Targeted Pest	California Red Scale (<i>Aonidiella aurantii</i>)
Use Rate	CIDETRAK® CRS MESO: Depending on the population abundance, use a minimum of 32 dispensers per acre (80 dispensers per hectare) to a maximum of 64 dispensers per acre (160 dispensers per hectare). For example, apply 48 dispensers per acre (120 dispensers per hectare) for moderate populations. Apply the maximum dispenser rate to all orchard borders including orchards that are adjacent to an untreated or otherwise at-risk orchard heavily infested with CRS. DO NOT exceed 150 gm combined a.i. per acre per year.
Application	Place the dispenser on the rotating hook, place the hook into an applicator tip, and hook the dispenser on the tree from the ground using a pole applicator, a moving trailer, a hydraulic man-lift or other safe means. Distribute dispensers in a grid pattern within the orchard except on borders. Apply dispensers within mid inner canopy on living branches of approximately ¾ - 1 inch size.
Monitoring/Timing	Apply prior to CRS emergence. Monitor CRS activity using PHEROCON® V traps and PHEROCON® CRS lures. Monitoring throughout the season to assess treatment effectiveness. Depending on temperature, CIDETRAK® CRS MESO dispensers will release pheromone for 150-180 days. In areas with a long field season, (i.e., more than 180 days), a second application may be necessary prior to subsequent CRS flights. Note - CIDETRAK® CRS MESO will not prevent crop damage from immigration of CRS into treated orchards. Nearby untreated CRS hosts, such as oranges, clementines, lemons, limes, tangerines, grapefruit, other citrus crops, and any other crop where CRS is a pest can be an additional source of CRS. Treat with CIDETRAK® CRS MESO only when all host crops within or near treated blocks have been adequately treated for these pests.
Treatment Tips	CIDETRAK® CRS MESO suppresses mating of CRS in targeted orchards. Immigration of CRS from adjacent, infested orchards can reduce the level of control. Area-wide treatment of the entire host plant block is the most effective strategy. Use insecticides to supplement CIDETRAK® CRS MESO to control populations. Monitor all pest populations to determine timely use of insecticides. Consider the following to manage immigration and high population pressures: <ol style="list-style-type: none"> 1. Treatment of external sources of infestation with CIDETRAK® CRS MESO 2. Treatment of external sources of infestation with an insecticide 3. Treatment of pheromone treated external orchards with an insecticide <p>Consult your local extension specialist, certified crop advisor, or Trécé representative for local field condition management strategies.</p>

STORAGE AND DISPOSAL

DO NOT contaminate food or feed by storage or disposal of unused or used dispensers.

PESTICIDE STORAGE: Store unopened original package in a dry location at a temperature below 40°F. Store in a cool, dry place, out of direct sunlight, and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in the original container and out of the reach of children, preferably in a locked storage area.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Non-refillable container: DO NOT reuse or refill this container. Dispose of empty containers and foil envelopes in trash.

WARRANTY AND LIMITATION OF DAMAGES

To the extent consistent with applicable law, all statements concerning the use of this product apply only when used as directed as stated on this product label. Trécé®, Inc. warrants that the product conforms to this label and under normal conditions of use according to this label, is reasonably fit for the stated label purpose. The manufacturer makes no express or implied warranties of merchantability or fitness for a purpose concerning this product, or its use, extending beyond the label. Under no circumstance will Trécé®, Inc. be liable for damage (special, consequential or incidental) that result from the handling, storage, or use of this product which is not in compliance with the label. Read all label directions carefully.

Buyer's exclusive remedy, should this product be defective, is replacement of the product, or if this is impractical, a purchase price refund.
