Biopesticides and Pollution Prevention Division (7511M)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

51934-31

Date of Issuance:

8/15/2025

**NOTICE OF PESTICIDE:**

☒ Registration  
☐ Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Cidetrak® CM PP

**Name and Address of Registrant (include ZIP Code):**

Trece, Inc  
7569 HWY 28 West  
Adair, OK 74330

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product, always refer to the above EPA Registration Number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the U.S. Environmental Protection Agency. In order to protect health and the environment, the Administrator, on his or her motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under the Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration or registration review of your product when EPA requires all registrants of similar products to submit such data.

Signature of Approving Official:

Gina Burnett, Senior Regulatory Advisor  
Biochemical Pesticides Branch  
Biopesticides and Pollution Prevention Division (7511M)  
Office of Pesticide Programs

Date:

8/15/2025

2. Submit storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) data as these data requirements are not satisfied. A one-year study is required to satisfy these data requirements. You have 18 months from the date of this registration to provide these data to EPA.
3. Make the following labeling change before you release this product for shipment:
  - Revise EPA Registration Number to read, "EPA Reg. No. 51934-31."
4. Submit one (1) copy of the final printed labeling for the record before you release this product for shipment.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6. A stamped copy of the labeling is enclosed for your records. Please also note that the record for this product currently contains the following acceptable Confidential Statement of Formula (CSF):

- Basic CSF dated 02/25/2025

If you have any questions, please contact Menyon Adams by phone at (202) 566-1604 or via email at [adams.menyon@epa.gov](mailto:adams.menyon@epa.gov).

Sincerely,

Gina Burnett, Senior Regulatory Advisor

[One dispenser contains: 95.0 mg, active ingredient]

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

#### CAUTION

Avoid contact with skin, eyes or clothing. Harmful if absorbed through the skin. Causes moderate eye and skin irritation. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

#### PERSONAL PROTECTIVE EQUIPMENT (PPE)

**Applicators and other handlers must wear:**

- Long-sleeved shirt and long pants
- Waterproof gloves
- Shoes plus socks

Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

#### USER SAFETY RECOMMENDATIONS

**Users should:**

- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

#### ENVIRONMENTAL HAZARDS

**DO NOT** apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

**DO NOT** contaminate water when disposing of this product.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL BEFORE USING**

**CIDETRAK® CM PP** is a dispenser system that contains behavior modifying pheromone in a polymeric matrix. It disrupts the mating communication between adult Codling Moth.

For maximum effectiveness, growers should remove and destroy infested fruit from trees and the ground. Maintain accurate records of CM adult population monitoring and larval damage within their orchards. Consult your local extension specialist, certified crop advisor, or Trécé representative for assistance in designing the best **CIDETRAK® CM PP** program for your orchard.

<b>Crop</b>	Apples, pears, quince and other pome fruit; walnut, pecan and other tree nuts; peaches, nectarines, plums, prunes and other stone fruits; Also, any other crop where CM is a pest.
<b>Targeted Pest</b>	Codling Moth ( <i>Cydia pomonella</i> ), Hickory Shuckworm ( <i>Cydia caryana</i> ).
<b>Use Rate</b>	<b>CIDETRAK® CM PP:</b> Depending on the population abundance, use a minimum of 200 dispensers per acre (500 dispensers per hectare) to a maximum of 400 dispensers per acre (1,000 dispensers per hectare). For example, apply 400 dispensers per acre (1,000 dispensers per hectare) for moderate to high populations. Apply the maximum dispenser rate to all orchard borders including orchards that are adjacent to an untreated or otherwise at-risk orchard heavily infested with CM. <b>DO NOT</b> exceed 150 g a.i. per acre per year.
<b>Application</b>	Attach dispensers securely to lateral branches in the upper 1/5th of the canopy. Distribute dispensers in a grid pattern within the orchard except on borders.  Apply/attach the dispensers from the ground using a pole applicator or from a moving trailer.
<b>Monitoring/Timing</b>	Apply prior to CM emergence in the spring. Monitor CM activity using PHEROCON® traps and PHEROCON® lures. Monitor throughout the season to assess treatment effectiveness.  <b>Note - CIDETRAK® CM PP will not prevent crop damage</b> from immigration of CM into treated orchards. Nearby (500 yards) untreated CM hosts, such as apples, walnuts, pears, quince, crabapple, plum and any other crop where CM is a pest can be an additional source of CM. Treat with <b>CIDETRAK® CM PP</b> only when all host crops within or near treated blocks have been adequately treated for these pests.

<b>Treatment Tips</b>	<p><b>CIDETRAK® CM PP</b> suppresses mating of CM in targeted orchards. Immigration of CM from adjacent, infested orchards can reduce the level of control. Area-wide treatment of the entire host plant block is the most effective strategy. Use insecticides to supplement <b>CIDETRAK® CM PP</b> to control populations. Monitor all pest populations to determine timely use of insecticides. Consider the following to manage immigration and high population pressures:</p> <ol style="list-style-type: none"> <li>1. Treatment of external sources of infestation with <b>CIDETRAK® CM PP</b></li> <li>2. Treatment of external sources of infestation with an insecticide</li> <li>3. Treatment of pheromone treated external orchards with an insecticide</li> </ol> <p>Consult your local extension specialist, certified crop advisor, or Trécé representative for local field condition management strategies.</p>
-----------------------	---

#### STORAGE AND DISPOSAL

**DO NOT contaminate food or feed by storage or disposal of unused or used dispensers.**

**PESTICIDE STORAGE:** Store unopened original package in a dry location at a temperature below 40°F. Store in a cool, dry place, out of direct sunlight, and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in the original container and out of the reach of children, preferably in a locked storage area.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL: Non-refillable container: DO NOT** reuse or refill this container. Dispose of empty containers and foil envelopes in trash.

#### WARRANTY AND LIMITATION OF DAMAGES

To the extent consistent with applicable law, all statements concerning the use of this product apply only when used as directed as stated on this product label. Trécé®, Inc. warrants that the product conforms to this label and under normal conditions of use according to this label, is reasonably fit for the stated label purpose. The manufacturer makes no express or implied warranties of merchantability or fitness for a purpose concerning this product, or its use, extending beyond the label. Under no circumstance will Trécé®, Inc. be liable for damage (special, consequential, or incidental) that result from the handling, storage, or use of this product which is not in compliance with the label. Read all label directions carefully.

Buyer's exclusive remedy, should this product be defective, is replacement of the product, or if this is impractical, a purchase price refund.
