Buffalo, NY 14203

BEST AVAILABLE COPY

NOTE Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence concerning this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

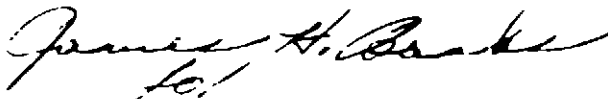

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provides that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(7) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product in shipment:
 - a. Add the phrase "EPA Registration No. 51973-4."
 - b. Delete the statement: General Classification (first label).
 - c. Delete the statement: (two locations)

for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

51973-4

6 pt. Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. TRESKO 64 has been formulated to aid in the reduction of cross-contamination.

TRESKO 64 is a "one-step" disinfectant cleaner that is effective against a broad spectrum of bacteria, is virucidal, fungicidal, and will prevent the growth of mold and mildew and their odors when used as directed.

TRESKO 64 is an effective "one-step" sanitizer-cleaner for use on non-food contact surfaces.

When used as directed, TRESKO 64 will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors.

10 pt. _____ Precautionary Statements

10 pt. _____ HAZARDS TO HUMANS AND DOMESTIC ANIMALS

14 pt. _____ DANGER

10 pt. & _____ **KEEP OUT OF REACH OF CHILDREN/Corrosive.** Causes eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

balance STATEMENT OF PRACTICAL TREATMENT: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

6 pt. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

10 pt. _____ CONTAINER DISPOSAL

6 pt. PLASTIC CONTAINERS-Triple rinse (or equivalent). Then offer for recycling or re-conditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

METAL CONTAINERS-Triple rinse (or equivalent). Then offer for recycling or re-conditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

GENERAL-Consult, federal, state, or local disposal authorities for approved alternative procedures as limited open burning.

10 pt. _____ For Sale For Use and Storage By Maintenance Personnel Only.

Directions For Use

GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

TRESCO 64 is a proven "one-step" disinfectant-cleaner-sanitizer-fungicide-mildewstat-virucide which is effective in water up to 400 ppm hardness in the presence of 5% serum contamination.

Apply TRESCO 64 to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, tile, porcelain, and bedframes with a cloth, mop or mechanical spray device as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

DISINFECTION-to disinfect hard, non-porous surfaces, in hospitals add 2 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At 1 1/2 oz. per gallon of water, TRESCO 64 will disinfect hard non-porous surfaces in schools, industry and non-medical institutions.

2 OZ. PER GALLON USE-LEVEL: The activity of TRESCO 64 has been evaluated in the presence of 5% serum and 400 ppm hard water by the AOAC use dilution test and found to be effective against a broad spectrum of gram negative and gram positive organisms as represented by:

- | | | |
|-------------------------|-----------------------------|----------------------|
| Pseudomonas aeruginosa | Brevibacterium ammoniagenes | Escherichia coli |
| Staphylococcus aureus | Enterobacter aerogenes | Shigella dysenteriae |
| Streptococcus pyogenes | Klebsiella pneumoniae | Salmonella typhi |
| Salmonella choleraesuis | Streptococcus faecalis | Serratia marcescens |

FOR SCHOOLS, INDUSTRY AND NON-MEDICAL INSTITUTIONS USE: At 1 1/2 oz./gallon of water, TRESCO 64 delivers excellent cleaning and germicidal effectiveness. It is effective against Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli and Serratia marcescens. The same AOAC tests used to confirm performance for hospitals were used.

FUNGICIDAL CONTROL-TRESCO 64 is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities, etc. at 2 oz. per gallon of water.

MOLD AND MILDEW CONTROL-At 1 1/2 oz./gallon, TRESCO 64 will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general instructions above). Allow to dry on surface and repeat when mildew growth returns.

VIRUCIDAL PERFORMANCE-At 1 1/2 oz. per gallon use-level TRESCO 64 was evaluated in the presence of 5% serum and 400 ppm hard water and found to be effective against the following viruses: Influenza A/Brazil, Herpes Simplex and Vaccinia on inanimate environmental surfaces.

SANITIZING-NON-FOOD CONTACT SURFACES (such as floors, walls, tables, etc.): at 1 oz. per 2 3/4 gallons use-level, TRESCO 64 is an effective sanitizer against Staphylococcus aureus and Klebsiella pneumoniae on hard porous and non-porous environmental surfaces. Treated surfaces must remain wet for 60 seconds.
