

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460 NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREISTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i>	EPA REGISTRATION NO.	DATE OF ISSUANCE
	52200-8	MAY 27, 1992
	TERM OF ISSUANCE	
		Until Reregistration
NAME OF PESTICIDE PRODUCT		Greensward 2.32% Dursban Granular Insecticide

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Tyler Enterprises, Inc.
 Route 53
 Box 356
 Elwood, Illinois 60421

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA sec. 3(c)(5) or FIFRA sec. 4 when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 52200-8."

b. In the Statement of Practical Treatment for "If In Eyes," delete the phrase "...for 15 minutes." Also, replace the word "gently" with "gentle."

c. On page 2 under the Directions for Use, delete the second paragraph which begins "Give excellent control..." This paragraph does not make sense and may be missing some text.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

USE ONLY FOR COMMERCIAL PURPOSES

MAY 27 1992

Registered under EPA Reg. No. 52200-8

Harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing dust and contact with eyes, skin and clothing. Keep children and pets off treated areas until this product is washed into the soil and the grass is dry. Wash thoroughly after handling and before smoking or eating.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or poison control center immediately. Drink one or two glasses of water and induce vomiting by touching back of throat with finger. DO NOT induce vomiting or give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, only by injection, is the preferable antidote.

IF INHALED: If breathing difficulty occurs, move individual to fresh air and get medical attention.

IF IN EYES: Hold eyelids open and flush with a steady, gently stream of water for 15 minutes. Call a physician.

IF ON SKIN: Remove contaminated clothing and wash affected areas with soap and water.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to fish, birds and other wildlife. Do not apply directly to water or wetlands. Do not apply where runoff is likely to occur.

BEST AVAILABLE COPY

not contaminate water when disposing of equipment washwaters. Apply this product only as specified on this label. Do not feed treated grass clippings to livestock.

This product is highly toxic to bees exposed to direct treatment or residues on plants. Protective information may be obtained from your Cooperative Agricultural Extension Service.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Give excellent control with the recommended amount of active ingredient while reducing the pounds of granules/1,000 sq. ft. It can be applied quickly and effectively over a large area.

SURFACE FEEDING INSECTS: For control of Chinch bugs, Sod webworms (Lawn moths), Ants, Fleas, Armyworms, Brown dog ticks, Crickets, Cutworms, Earwigs, and Sowbugs, apply at the rate of 1 pound/1,000 sq. ft. of turf. Refer to chart for respective spreader settings. Make sure your spreader is calibrated for this product before application. Treat in the Spring (mid-May to June) or when your "Lawn Program" calls for a surface insect control application. Repeat as the program indicates or as needed for control. Sod webworms may have 3 to 4 generations of larvae in one year which require additional treatments at 30 to 60 day intervals during the summer months. Either lightly sprinkle the area after treatment or advise the "customer" to do so as soon as possible to move the insecticide into the zone of insect infestation. Advise or "post" the treated area not to allow children or pets on treated area until the insecticide has been sprinkled and the grass is dry.

BAND TREATMENT AROUND THE HOME: To protect the dwelling from possible insect infestations, a band of granules may be placed around the building to control Ants, Brown dog ticks, Crickets, Earwigs, Fleas, Millipedes, Sowbugs, Springtails and Spiders. One pound of this product will treat a 5 foot band 100 feet long around the home (4 ounces will treat a band 20 feet long). Acts as a barrier against insects invading the home. Apply when insects have become troublesome or before they cause problems in the Spring or early Fall. Repeat as needed for control.

WHITE GRUB LARVAE CONTROL IN THE TURF: For Root Feeding Insects such as Bill bug larvae, and the "White Grub" larvae of Japanese beetle, European chafer, Southern chafer and Hyperodes weevil, apply 2 lbs./1,000 sq.ft. of turf. Make sure your spreader is properly calibrated to apply this product. Irrigate the turf after treatment as soon as possible to wash the insecticide into the root zone where the insects are feeding. Apply when the White grub larvae are young and actively feeding near the soil surface in mid-July and early August. For the Hyperodes (Turfgrass) weevil, apply in mid-April and again in mid-May at the same rate as above.

After application advise or "post" the treated area not to allow children or pets on treated areas until insecticide has been washed into the soil and the grass is dry. Consult your Agricultural Extension Service for the best time to treat for "Grubs" in your area.

HOW TO APPLY: The following spreader settings are for use with new equipment. Your used spreader may need calibrating. Since proper application is based on the

595

spreader's condition with regard to age and use, your walking speed and the evenness of the terrain, your spreading equipment may require adjustments. If you have reason to believe that your spreader is not calibrated correctly, test apply by placing the amount for 500 sq.ft. into your spreader and apply to your pre-measured 500 sq.ft. (10' x 50') or by other suitable calibrating method.

SPREADER SETTINGS - For One Pass Application

Spreader	Surface Feeding Insects (1.0 lbs/1,000 sq.ft.)	Root Feeding Insects (2.0 lbs/1,000 sq.ft.)

STORAGE AND DISPOSAL

STORAGE: Store in original container and place in a cool, dry location. Do not contaminate water, food or feed by storage or disposal.
PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY AND LIMITATION OF DAMAGES

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and Buyer assumes the risk of any use contrary to such directions. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY, INCLUDING ANY OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR OF MERCHANTABILITY, AND NO AGENT OF SELLER IS AUTHORIZED TO DO SO EXCEPT IN WRITING WITH SPECIFIC REFERENCE TO THIS WARRANTY. In No event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
