NOV 8 1988

TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
*(Under the Federal Insecticide, Fungicide
and Rodenticide Act, as amended)*

NAME OF PESTICIDE PRODUCT

West/11 set 833

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Western Wellchems, Inc.
600 17th Street, Suite 915 North
Denver, CO 80202

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under the Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use, if it has been covered by others.

The registrant is advised that the registration of a pesticide under the Act is subject to the following conditions:

- The registrant shall submit to the Agency, at the time of registration, a copy of the labeling for the pesticide, including the name and address of the registrant, and a copy of the pesticide label as required by the Act.
- All the information submitted to the Agency shall be true and correct, and shall not be misleading or deceptive.
- The registrant shall comply with all applicable laws, regulations, and orders of the Agency, including those relating to the registration of pesticides.
- The registrant shall comply with all applicable laws, regulations, and orders of the Agency, including those relating to the registration of pesticides.

If these conditions are not complied with, the registration will be subject to cancellation or suspension without notice. Your failure to comply with the conditions of registration may result in the cancellation of the registration of the pesticide.

A stamped copy of this registration is enclosed for your records.

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate

100.00

INERT INGREDIENTS

90.00

This product contains 0.87 lb. of active ingredient per gallon and weighs 8.68 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. Do not get in the eyes. Flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, promptly drink 4 glasses of water. Contact a physician or Poison Control Center immediately. DO NOT INDUCE VOMITING.

Note to physician: Irritation of oral damage may contain ferrate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply to ponds and/or estuaries or fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, reservoirs, oceans, or public waters unless the product label specifically indicates that it may be done. Do not discharge effluent containing this product to sewer lines or into any drainage system serving the sewage treatment plant. For a full list, contact your State Water Board or Regional Office of the EPA.

NET CONTENTS

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

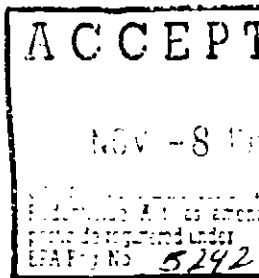

WEST/TREAT 833

anaerobic bacteria, including sulfate-reducing bacteria, in systems for recovery waterflooding operations. In systems for recovery waterflooding operations, WEST/TREAT 833

at a concentration of 40 to 80 ppm (parts per million) based on the total weight of water treated. This should be for WEST/TREAT 833

to maintain a concentration of 40 ppm, based on the total weight of water treated. WEST/TREAT 833 slug additions and continuous addition of WEST/TREAT 833 should be made at the heater treater dump, gathering system, or separator. Additions should always be made upstream to the filter. WEST/TREAT 833

fungi and bacteria in water based drilling muds, completion fluids, and water based drilling fluids containing starch, gums, and other additives. For these purposes, WEST/TREAT 833 should be added to the fluid at a rate of 1 to 2 gal. per 100 barrels of fluid.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Do not expose to extreme temperatures. Do not stack drums (should be placed in overpack drums for disposal). Spills should be cleaned up immediately. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. If these wastes are spilled, it is a violation of Federal Law. If these wastes are spilled, contact your State Pesticide or Environmental Control Agency or your EPA Regional Office for guidance.

CONTAINER DISPOSAL

(1) PLASTIC: Triple rinse (or equivalent). Then offer for recycling or incineration, by incineration, or, if allowed by state and local authorities, for reuse.

(2) METAL: Triple rinse (or equivalent). Then offer for recycling or incineration, by incineration, or, if allowed by state and local authorities, for reuse.
