BLUE DEATH SUGAR BAIT FLY KILLER

PRECAUTIONARY STATEMENTS ✓  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS ✓  
CAUTION ✓

May be harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and warm water after handling. Wash contaminated clothing with soap and hot water before reuse. Do not contaminate feed or food. Do not contaminate milk, milking equipment, feed or drinking water. ✓

STATEMENT OF PRACTICAL TREATMENT ✓

IF SWALLOWED: ✓ Contact a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything to drink to an unconscious person.

IF INHALED: Remove person to fresh air. Apply artificial respiration if indicated.

IF ON SKIN: ✓ Remove contaminated clothing and wash affected areas with plenty of soap and water.

IF IN EYES. ✓ Flush eyes with plenty of water. Call a physician if irritation persists.

WARNING - ~~low~~

Do not use in human dwellings. Do not apply directly to animals. Do not treat portion of buildings where poultry feed or which animals can lick. Direct application to surfaces previously treated with lime, whitewash or other alkali may be ineffective.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

BLUE-DEATH SUGAR BAIT FLY KILLER can be used dry "as is" or dissolved in water and used as described below. Good sanitation is essential to fly control. Remove wastes promptly and apply BLUE DEATH SUGAR BAIT FLY KILLER daily until flies are controlled. Repeat as needed for control.

BLUE DEATH SUGAR BAIT FLY KILLER

DIRECTIONS FOR USE (CONT'D)

As a Dry Bait: Scatter lightly in strips on floors, window sills, or other clean horizontal areas in and around dairy barns, poultry houses, stables and animal hospitals where flies are found. Use about 4 oz. per 1000 square feet, scatter lightly so bait is barely visible. Apply directly to garbage and manure areas where flies breed and congregate. BLUE DEATH SUGAR BAIT FLY KILLER may be applied to moistened surfaces for faster kill. ✓

As A Water Solution: Mix 4 oz. BLUE DEATH SUGAR BAIT FLY KILLER in one gallon of water and two cups of corn syrup or one pound of sugar and stir until dissolved.

Sprinkle the solution in a swathe 4-10 inches wide and apply the solution to burlap bags or squares of hard surface material and place on floors, window sills of farm building and outside buildings where fly population is intense.

Do not use in human dwellings. Do not apply directly to animals. Do not treat portion of buildings where poultry feed or which animals can lick. Direct application to surfaces previously treated with lime, whitewash or other alkali may be ineffective. ✓

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. ✓

Storage: Store in a cool dry place. ✓

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. ✓

Container Disposal (plastic): Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. ✓

NOTICE OF WARRANTY
