Swimpol Klean - 10

ACTIVE INGREDIENT:

Poly[oxyethylene (dimethyliminio) ethylene-
(dimethyliminio) ethylene dichloride] 10.0%

INERT INGREDIENT 98.0%

This product contains 0.85 lb. of active ingredient per gallon and weighs 8.49 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Swimpol Klean - 10 is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs, and decorative fountains. For maximum effectiveness pools, spas, whirlpools, hot tubs, and decorative fountains containing heavy growth of algae should be cleaned prior to using Swimpol Klean - 10.

For pools having just visible algae growth add an initial dose of 75 to 116 fluid ounces of Swimpol Klean - 10 per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 41 to 75 fluid ounces of Swimpol Klean - 10 per 10,000 gallons of water. Subsequent additions of 13.6 to 27 fluid ounces of Swimpol Klean - 10 per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, hot tubs, or decorative fountains having just visible algae growth require an initial dose of 8 to 12 fluid ounces of Swimpol Klean - 10 per 1000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, hot tub, or decorative fountain, add initially 4 to 8 fluid ounces of Swimpol Klean - 10 per 1000 gallons of water. Subsequent additions of 1 to 3 fluid ounces of Swimpol Klean - 10 should be made every 5 to 7 days after initial treatment for maintenance.

Swimpol Klean - 10 is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. Algacide can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix Swimpol Klean - 10 with concentrated dry or liquid chlorine products.

STORAGE AND DISPOSAL

STORAGE: Keep container closed when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.

DISPOSAL: Do not reuse empty container. Wrap container and place in trash.
