Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry.

RK-400 has been formulated to aid in the reduction of cross-contamination in these areas.

RK-400 is a one-step disinfectant cleaner that is effective against a broad spectrum of bacteria, is virucidal, fungicidal, and will prevent the growth of mold and mildew and their odors when used as directed.

RK-400 is an effective one-step sanitizer-cleaner for use on non-food contact surfaces.

When used as directed **RK-400** will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors.
