APPLYING STAIN

Stir thoroughly before using. Apply when temperature is over 50. Avoid staining in hot sun; it is best to follow the shade around the house. Do not stain when rain is imminent. Before starting, mix together as many gallons as needed to do one side. Stain is best applied with 4 inch bristle stain brush, or flat pads. If rollers are used, simultaneous brushing out is required. Apply in direction of grain. For vertical siding, paint 3 or 4 boards at a time from top to bottom, keeping a wet edge.
