| 4. Typed Name Stephen Woytowich | 5. Date September 12, 1995 | |

MAGNA PHEN-100 is a multi-purpose disinfectant containing a novel combination of phenolic compounds and special detergents. It was developed especially for the control of microorganisms in the environment and on hard surfaces. The superior broad spectrum germicidal activities of the phenolic compounds provide an excellent cleaning and disinfectant product.

MAGNA PHEN-100 when diluted with water at 1:400 using the official AOAC Use Dilution test will kill Gram negative and Gram positive bacteria. The disinfectant will inhibit the growth of fungus and control the growth of mold and mildew and their odor when used as directed.

MAGNA PHEN-100 has high germicidal activity. It is also a water softener because it contains special chelating agents. It is non-corrosive to metal surfaces and equipment.

Precautionary Statements Hazards to Humans and Domestic Animals

DANGER

CORROSIVE. Keep out of reach of children. Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Do not breathe spray mist. Avoid contamination of food.

ENVIRONMENTAL HAZARDS. This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: Do not use or store near heat, fire or open flame. Keep container closed except when in use.

Storage and Disposal

- Do not contaminate water, food or feed by storage or disposal.
- Do not store on side.
- Avoid creasing or impacting of side walls.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray, or mixture or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

Triple rinse container, even if empty, before recycling or reconditioning or before disposal of it and by hand. For information on recycling, or if allowed by state and local authorities, burning if burned stay out of smoke.

POULTRY AND

For Cleaning and Disinfection of:

- HOUSES** including all pre-cleaned hard surfaces and facilities.
- EQUIPMENT** including feeders, waterers, troughs, and troughs.
- VEHICLES** including live haul, poultry tractors and all other vehicles.
- HATCHERIES** including floors, walls, and ceilings.
- SHOEBATHS** including all entrances.

APPLICATION

POULTRY HOUSES:

1. Remove all poultry and feeds from the house. Remove all litter and droppings from floors, walls, and troughs. Empty all troughs, racks, and waterers. Thoroughly clean all surfaces with water.
2. Use 1 ounce of **MAGNA PHEN-100** per 400 parts of water to treat all pre-cleaned surfaces with the recommended disinfectant solution for 10 minutes. Ventilate buildings, coops, and other equipment until treatment has been completed. Thoroughly clean all surfaces, troughs, automatic feeders, and waterers with soap or detergent and rinse with potable water before use.

FARM PREMISES:

1. Do not use in milking stalls, milking parlors, or areas where milk is produced. Pine oils should not be used in premises, vehicles and enclosures traversed by animals. Empty all troughs, racks, and waterers. Thoroughly clean all surfaces with water.
2. Use 1:400 dilution of **MAGNA PHEN-100** per 400 parts of water to treat all pre-cleaned surfaces with the recommended disinfectant solution for 10 minutes.
3. Thoroughly scrub all treated feed racks and waterers with soap or detergent.
4. Immerse all equipment in disinfectant solution per 1000 square feet of floor space per house livestock or employ equipment.

EQUIPMENT:

1. Empty all troughs, racks, feeding equipment, and waterers. Thoroughly clean all surfaces with water.
2. Use 1 ounce of **MAGNA PHEN-100** per 400 parts of water to treat all pre-cleaned surfaces with the recommended disinfectant solution for 10 minutes.
3. Thoroughly scrub all treated feed racks and waterers with soap or detergent.

VEHICLES:

1. Clean all vehicles including mats, floors, and walls with water.
2. Use 1 ounce of **MAGNA PHEN-100** per 400 parts of water to treat all pre-cleaned surfaces with the recommended disinfectant solution for 10 minutes.

HATCHERIES:

1. In the absence of eggs or chicks, use the recommended dilution and scrub with potable water.
2. Saturate surfaces with **MAGNA PHEN-100** per 400 parts of water to treat hatcheries. All treated surfaces exposed to the air should be disinfected with water before use.
3. Thoroughly scrub treated surfaces with water before use.

SHOEBATHS:

1. Thoroughly clean the shoebath with water and detergent. Rinse with water.
2. Use 1 ounce of **MAGNA PHEN-100** per 400 parts of water to treat shoebaths. Routine use of shoebaths using **MAGNA PHEN-100** will help prevent contamination in the house and hatcheries.
