Spray outside surfaces of tents, lean-tos, and shelters in camping areas, the outside of barns, garages, kennels, creameries, food processing plants, and institutions until surfaces are thoroughly wet, paying particular attention to screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around outdoor light fixtures on porches, in garages, and other places where these insects might aggregate. Repeat as necessary.

Keep the area closed for 15 minutes, then thoroughly ventilate before entering the treated area.
