ACCEPTED

AUG 25 1986

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 52969-1.

manner inconsistent with its labeling. GLOBOL ELECTRIC BUG STOP evaporator units are to be used with GLOBOL ELECTRIC BUG STOP MOSQUITO AND FLY MATS. Tear or cut the seal on one of the sections of the pad packaging and take out one GLOBOL BUG STOP pad. Insert the pad in the heater, then plug the unit into an electric outlet. Mosquitoes and flies will be killed by the pleasant perfumed vapor produced by the heater. GLOBOL BUG STOP efficiently destroys mosquitoes and flies in a room of up to 2300 cu. ft. (approx. 15 x 19 x 8 feet). For best results in larger rooms, reduce ventilation. One GLOBOL BUG STOP pad lasts ten hours. The pad turns white when the active ingredients have been

evaporated. To change pad, unplug heater, insert a new pad—the used pad will be forced out. The unit may now be plugged in again.

FOR INDOOR USE ONLY. Use only when mosquitoes and flies are annoying.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN.

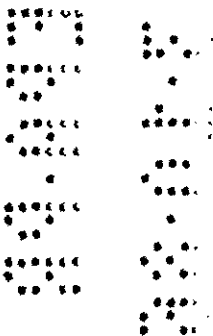

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Remove pets from rooms being treated and cover aquariums. In sleeping rooms, use for just one hour before bedtime, then unplug. Do not insert articles other than GLOBOL BUG STOP MOSQUITO AND FLY PADS in the heater. Do not cover the unit with cloth or other material. Do not use in a kitchen or food preparation room with uncovered food.

STORAGE: Store in original container and keep in a locked area.

DISPOSAL: Unplug heater, insert a new pad—the used pad will be forced out. Securely wrap pad in several layers of newspaper and place in trash. Do not reuse pad container. Discard container in trash.

Caution: Keep out of reach of children. See back panel for additional precautionary statements.
