| U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (WH-567) WASHINGTON, D.C. 20460 | EPA REGISTRATION NO. 52980-4 | DATE OF ISSUANCE 08 NOV 1984 |
| | TERM OF ISSUANCE | |
| NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended) | NAME OF PESTICIDE PRODUCT CMX-44 | |
| NAME AND ADDRESS OF REGISTRANT (Include ZIP code) | | |
| CMX Industries, Inc. 3442 Wilmette Avenue Wilmette, IL 60091 | | |
| NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number. | | |
| On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act. | | |
| A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith. | | |
| Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others. | | |
| This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you: | | |
| 1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data. | | |
| 2. Make the labeling changes listed below before you release the product for shipment: | | |
| a. Add the phrase "EPA registration No. 52980-4." | | |
| b. Change the environmental hazard statement to read as follows: | | |
| ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. | | |
| <input checked="" type="checkbox"/> ATTACHMENT IS APPLICABLE | | SIGNATURE OF APPROVING OFFICIAL <i>[Handwritten Signature]</i> |
| SIGNATURE OF APPROVING OFFICIAL | | |
| SIGNATURE OF APPROVING OFFICIAL | | DATE |

3. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

A handwritten signature in cursive script that reads "James H. Banks" followed by a smaller signature that appears to be "for".

John H. Lee
Product Manager (31)
Disinfectants Branch
Registration Division (TS-767C)

Enclosure

CMX-44

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate 33.3 %

INERT INGREDIENTS 66.7 %

This product contains 3.17 lb. of active ingredient per gallon and weighs 9.61 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN
WARNING**

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

WARNING: Causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: *In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, call a physician immediately. If patient is conscious, induce vomiting by stroking or tickling the patient's throat or far back on patient's tongue. Emetics such as 2 teaspoonful (10 mL) of ipecac syrup or 1 teaspoonful (5 mL) of dry mustard in warm water to form a paste or even soap in warm water can be used. Repeat until vomit is clear. Then have patient drink plenty of milk, gelatin solution, beaten egg whites, flour and water, or other nonoily demulcent. Never induce vomiting or give anything by mouth to an unconscious person.*
Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: The pesticide is toxic to fish. Do not discharge treated effluent into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance, contact your Regional Office of the Environmental Protection Agency.

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CMX-44 is used for controlling microbial growth in recirculating cooling tower systems and industrial microbiological slime. Prior to the use of CMX-44 in industrial and/or commercial recirculating cooling towers, the towers should be thoroughly cleaned to remove algal growth, microbiological slime, and other deposits. An initial slug addition of 3.3 to 4.9 fl. oz. of CMX-44 per 1000 gal. of water to provide 30 to 45 ppm, based on total weight of water, should be made until control is evident. Make subsequent slug additions of CMX-44 per 1000 gal. of water (CMX-44) every 2 to 3 weeks. The frequency of addition depends upon the relative amount of microbiological problem. Slug additions should be made to recirculating cooling tower systems.

CMX-44 is used for controlling microbial growth in which maintain effective mist-eliminating components. Cleaned to remove bacterial slime and other deposits. An initial slug addition of 9.8 fl. oz. of CMX-44 per 1000 gal. of water is recommended. Repeat initial dosage until control is evident. Subsequent slug additions of 5.7 to 9.8 fl. oz. of CMX-44 per 1000 gal. of water should be employed every 1 to 5 days. The frequency of addition depends upon the relative amount of bleedoff. Slug additions may be made to the sump or the recirculating system.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **STORAGE:** Do not expose to extreme temperatures. Do not stack drums should be placed in overpack drums for disposal. Spills should be cleaned up and disposed of in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal is a violation of Federal Law. If these wastes cannot be disposed of by the above methods, contact your State Pesticide or Environmental Control Agency, or the nearest Regional Office for guidance.

CONTAINER DISPOSAL:

- 1) **PLASTIC:** Triple rinse (or equivalent). Then offer for recycling or disposal, by incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.
- 2) **METAL:** Triple rinse (or equivalent). Then offer for recycling or disposal, by incineration, or by other procedures approved by state and local authorities.
