

U.S. ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (HH-567)
WASHINGTON, D.C. 20460

EPA REGISTRATION NO.

DATE OF ISSUANCE

08 NOV 1984

TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREГИSTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

25-4-4

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

CNX Chemicals, Inc.
5440 Sunset Boulevard
West Hollywood, CA 90068

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 4(d)(7)(A) provided that you:

1. Submit any/ or cite any data necessary for registration or reregistration of your product under FIFRA section 4(d)(7)(A) to the Agency to permit all registrants of similar products to benefit from such data.

2. Make the following changes to the label to be used for the product for shipment:

a. Add the address "EPA Registration No. 25-4-4."

b. Change the environmental hazard statement to read as follows:

ENVIRONMENTAL HAZARD: This product may be toxic to fish, birds, and other animals if it enters water bodies, streams, rivers, estuaries, ponds, or other aquatic environments. Do not use or store if there is a possibility of runoff or drift into water bodies. Do not use or store if there is a possibility of drift into water bodies. Do not use or store if there is a possibility of drift into water bodies.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

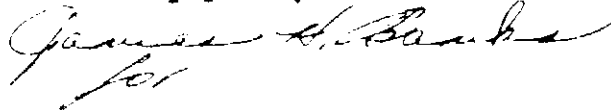

DATE

3. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "James H. Banks", with a small "for" written below it.

Job-50631:Lee:Kendrick & Co.:898-1270:tar:CBI-11:11/6/84:del.11/16/84

CMX-44

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate 33.3%

INERT INGREDIENTS 66.7%

This product contains 3.17 lb. of active ingredient per gallon and weighs 9.61 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN WARNING

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, call a physician immediately. If patient is conscious, induce vomiting by stroking or tickling the patient's throat or far back on patient's tongue. Emetics such as 2 teaspoonful (10 mL) of ipecac syrup or 1 teaspoonful (5 mL) of dry mustard in warm water to form a paste or even soap in warm water can be used. Repeat until vomit fluid is clear. Then have patient drink plenty of milk, gelatin solution, or water. Do not induce vomiting if patient is unconscious. Never induce vomiting or give anything by mouth to an unconscious person. Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge treated effluent into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance, contact your Regional Office of the Environmental Protection Agency.

ACCEPTED with COMMENTS in EPA Letter Dated:

NOV 08 1984

Manufactured by: CMX Industries, Inc. 3442 Wilmette Avenue Wilmette, IL 60091

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No.

EPA Reg. No.

EPA Est. No. 52980-4

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CMX-44 is used in recirculating cooling tower systems and industrial systems to control and prevent microbiological slime. Prior to the use of CMX-44, the cooling tower sump, industrial and/or commercial recirculating cooling tower sump, and/or condenser coils should be cleaned to remove algal growth, microbiological slime, and other deposits. An initial slug addition of 3.3 to 4.9 fl. oz. of CMX-44 per 1000 gal. of water to provide 30 to 45 ppm, based on total weight of water in the system, until control is evident. Make subsequent slug addition of CMX-44 per 1000 gal. of water (CMX-44) every 2 to 5 days. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made to the recirculating cooling tower systems.

CMX-44 is used in systems which maintain effective mist-eliminating components. For systems which are cleaned to remove bacterial slime and other deposits. A slug addition of 9.8 fl. oz. of CMX-44 per 1000 gal. of water is recommended. Repeat initial dosage until control is evident. Subsequent slug additions of 5.7 to 9.8 fl. oz. of CMX-44 per 1000 gal. of water should be employed every 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions may be made to the sump or the water system.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Do not expose to extreme temperatures. Do not stack more than 10 drums. Drums should be placed in overpack drums for disposal. Spills should be cleaned up and disposed of in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of pesticide wastes is a violation of Federal Law. If these wastes cannot be disposed of by other means, contact your State Pesticide or Environmental Control Agency, or the nearest Regional Office for guidance.

CONTAINER DISPOSAL

PLASTIC: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or for disposal in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.

METAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or for disposal in a sanitary landfill, or by other procedures approved by state and local authorities.

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 52980-5."
 - b. Change the environmental hazard statement to read as follows:

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CMX-45 is used for recirculating cooling tower systems and industrial microbiological slime. Prior to the use of CMX-45 industrial and/or commercial recirculating cooling towers should be cleaned to remove algal growth, microbiological slime, and other deposits. An initial slug addition of 2.0 to 3.0 fl. oz. of CMX-45 per 1000 gal. of water to provide 20 to 30 ppm CMX-45 (based on total weight of water) until control is evident. Make subsequent slug additions of CMX-45 per 1000 gal. of water (ppm CMX-45 _____) every 7 to 10 days. Frequency of addition depends upon the relative amount of microbiological problem. Slug additions should be made to recirculating cooling tower systems.

CMX-45 is used for which maintain effective mist-eliminating components. Recirculating cooling towers should be cleaned to remove bacterial slime and other deposits. An initial slug addition of 6.0 fl. oz. of CMX-45 per 1000 gal. of water is recommended. Repeat initial dosage until control is evident. Subsequent slug additions of 3.5 to 6.0 fl. oz. of CMX-45 per 1000 gal. of water should be employed every 1 to 5 days. Frequency of addition depends upon the relative amount of bacterial problem. Slug additions may be made to the sump or the recirculating system.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Do not expose to extreme temperatures. Do not store drums should be placed in overpack drums for disposal. Spills should be cleaned up in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal is a violation of Federal Law. If these wastes cannot be disposed of by the user, contact your State Pesticide or Environmental Control Agency, or the nearest Regional Office for guidance.

CONTAINER DISPOSAL:
