

DEC 12 1991

Mr. Christopher Davis
Mycogen Corporation
5451 Oberlin Drive
San Diego, CA 92121

Dear Mr. Davis:

Subject: Addition of use in or around Greenhouses
Sharpshooter Herbicide
EPA Registration No. 53219-5
Your Submission Dated November 27, 1991

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you:

1. Submit/cite all data required for registration/-reregistration of your product under FIFRA section 3(c)(5) or 4(a) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

- Update the environmental hazards section to include the statement:

Do not contaminate water when disposing of equipment washwaters.

3. Submit one (1) copy of your final printed labeling before you release the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

-2-

A stamped copy of the label is enclosed for your records.

Sincerely yours,

C. Giles-Parker

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read the entire label before using product.

IMPORTANT: SharpShooter is a general contact herbicide and will damage or destroy all vegetation which it contacts. Avoid overspray or spray drift onto desirable lawn grass, flowers, shrubs or trees. Keep people and pets off treated areas until dry to avoid product transfer to desirable vegetation. Herbicidal action is rapid with effects visible within hours. For most rapid kill, apply in warm, dry weather. May cause white coloring on some types of brickwork or concrete. Color will wear off after a few weeks.

SHAKE CONCENTRATE WELL and dilute as indicated below for spot treatment of weeds.

Rates: *Young annual weeds (3-5 leaves)* - Mix 1 part concentrate with 5 parts water (about 5 1/2 oz. per quart). *Weed suppression or top kill of older annual or perennial weeds* - Mix 1 part concentrate with 2 parts water (about 11 oz. per quart). SHAKE DILUTED PRODUCT WELL. If leftover diluted product is allowed to stand for more than 30 minutes, agitate sprayer before use.

Use: Use freshly diluted spray for spot treatment of weeds. Ensure thorough wetting (avoid run-off) and complete coverage of all unwanted vegetation. Do not apply during windy conditions that will carry spray to desired vegetation.

NOTE: Only those plant parts directly contacted by the herbicide spray will be damaged.

Equipment: The diluted product may be applied using any spray bottle, hand-held or knapsack type sprayer which provides thorough wetting and complete coverage of vegetation. Do not apply using hose-end sprayers.

Weeds: This product will control most young, succulent, and actively growing weeds (less than 5' high). Several treatments may be necessary to control established weeds. Maturing (flowering), or woody weeds are less susceptible and may not be killed. This product may not kill all perennial weeds but will result in top kill and suppression. Weeds and grasses emerging after application, and regrowth from perennial weeds after top kill, will not be controlled without reapplication. This product is non-selective and non-residual. For weeds in lawns and flower gardens, shield lawn grass and desired plants carefully to avoid damage. This product will not move through soil to injure nearby plants.

WEED CONTROL IN GREENHOUSES

This product may be used for broad spectrum non-selective weed control in greenhouses. Weeds can be controlled under benches, along wall ways, around plant containers or beds, and under woody stemmed plants. Direct the herbicide spray to the base of desirable woody plants. Foliage contacted by the herbicide spray may be damaged. Follow directions above for rates. Do not use for food crop weed control.

PRECAUTIONARY STATEMENTS

WARNING

Hazards to Humans and Domestic Animals: Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. In case of contact, immediately flush eyes or skin with plenty of water for 15 minutes. Get medical attention if irritation persists. Avoid breathing spray mist. If swallowed, stomach and intestinal irritation may occur.

First Aid: If in eyes or on skin, immediately flush with plenty of water for 15 minutes. If swallowed, drink 1 or 2 glasses of water. Do not induce vomiting.

Environmental Hazards: Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes.

For emergency medical information, call toll free 1-800-228-5635.

STORAGE AND DISPOSAL

Do not contaminate water, feed or foodstuff by storage or disposal.

Storage: Keep container tightly sealed when not in use. Store only in original container; in a dry place; inaccessible to children and pets.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Do not reuse empty container. Triple rinse, then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

LIMIT OF WARRANTY AND LIABILITY

This product conforms to the description on this label and is reasonably fit for the purpose set forth on this label when used according to the label directions and under the specified label conditions. THE MANUFACTURER DISCLAIMS ANY AND ALL OTHER EXPRESS OR IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE. Buyer and all users assume all risks and responsibility for loss or damage if this product is used, stored, handled or applied under any condition not reasonably foreseeable or beyond the manufacturer's control, or not as explicitly set forth in this label. THE LIMIT OF THE MANUFACTURER'S LIABILITY SHALL BE THE PURCHASE PRICE FOR THE QUANTITY INVOLVED. IN NO EVENT SHALL THE MANUFACTURER BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES.
