

JAN 21 2004

Mr. John Schroer
3V Inc.
P.O. Box 2810
Georgetown, S.C. 29442

Subject: Oxidan TCA Granular Algicide Treatment
EPA Registration Number 53254-11
Application Date: 12/8/03
Receipt Date: 12/24/03

Dear Mr. Schroer:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To update the "first aid" statement in accordance with PR Notice 2001-1

Conditions

- Delete the "!" after the signal word "DANGER".
- Under the "First Aid" Statement delete the word "Antimicrobial".
- Place "Keep Out Of Reach Of Children" followed by the signal word "Danger" above the boxed "First Aid" statement.
- Under the "Directions for Use" replace the word "WARNING" with "NOTICE".

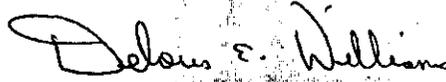

General Comments

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

OXIDAN ALGICIDE TREATMENT

KEEP OUT OF REACH OF CHILDREN DANGER! FIRST AID ANTIMICROBIAL	
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If swallowed	<ul style="list-style-type: none"> • Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
NOTE TO PHYSICIAN Probable mucosal damage may contraindicate use of gastric lavage.	

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get into eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS

Strong Oxidizing Agent: Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product since this may cause a violent reaction leading to fire or explosion. Will burn with the evolution of chlorine and equally toxic gases. Contact with water, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of irritating, hazardous gases, and possible generation of fire and explosion. Decomposes at 460° F to 480° F with liberation of harmful gases.

In case of fire, if possible, isolate container in open, well ventilated area. Flood with large volume of water. **In case of contamination or decomposition,** do not reseal container.
