Ms. Diana G. Williams
 Registration Manager
 United Agri Products
 P.O. Box 1286
 Greeley, CO 80632

Dear Ms. Williams:

Subject: Minor Change in Formulation/Increase Spray Pressure
 and Label Changes
 SCS Wasp and Ant Spray
 EPA Registration No. 53281-1
 Your Amended Application Dated February 22, 1988

The Confidential Statement of Formula and labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, will be acceptable provided the following labeling revisions are made:

1. Revise the Storage and Disposal statement to read:

Storage: Store container in a cool dry area away from heat or open flame.

Disposal: Do not reuse empty container. Replace cap, wrap container in newspaper and put in trash collection.

2. Revise the use restriction statement to read:

FOR COMMERCIAL/INDUSTRIAL USE

EPA REG. NO. 51281-1 EPA EST. NO. 54487-GA-1

PRECAUTIONARY STATEMENTS
CAUTION

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed. Avoid inhalation of vapors. May cause eye irritation. Avoid contact with skin and eyes. Wash contaminated skin promptly with soap and warm water. For eyes, flush with plenty of water. Get medical attention if irritation persists.

Do not use in commercial food processing, preparation, serving or storage areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food. Remove pets, birds and cover fish aquariums before spraying.

PHYSICAL HAZARDS

Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

FOR ANT CONTROL: (MOUND CONTROL), (A) Install delivery tube on spray can. (B) Begin spraying; then insert delivery tube into ant mound while maintaining spray delivery. Insert in several locations to maximum possible depths. (C) Remove delivery tube, reinstall spray nozzle and spray external areas of the mound thoroughly.

FOR FORAGING ANT CONTROL, Use spray nozzle, spray directly on ants.

FOR WASP AND HORNET CONTROL, (A) Spray from upwind position. (B) Spray nest from distance of at least 8-12 feet. (8-12 feet is the optimum spraying distance.) (C) Spray until nest is thoroughly covered and all emerging wasps or hornets are contacted. (D) Apply to nesting areas at dusk, when possible, since most of the insects are then in the nest and less active.

FOR YELLOW JACKET AND BEE CONTROL, (A) Initiate spray in a sweeping motion on external flying insects around the opening of the nest. (B) Move forward to the nest opening and spray liquid directly into nest hole. (C) Apply to nesting areas at dusk, when possible, since most of the insects are then in the nest and less active.

STORAGE AND DISPOSAL

Replace cap and discard containers in trash. Do not incinerate or puncture.

NOTICE OF WARRANTY

SCS warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for the purposes stated on such label only when used in accordance with the directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product. Foliage injury, equipment damage or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of application or use, all of which are beyond the control of SCS. In no case shall SCS be liable for consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer. SCS makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above.
