NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

- This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:
1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
 2. Add the phrase "EPA Registration No. 53360-3" to your label before you release the product for shipment.
 3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.
- If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.
- A stamped copy of the label is enclosed for your records.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

WATACIDE DTC-10

For use on recirculating cooling tower systems and in the presence of microbiological slime. Prior to the use of WATACIDE DTC-10 on industrial and/or commercial recirculating cooling tower systems, clean to remove algal growth, microbiological growth, and other debris. Initial slug addition of 12.0 to 17.9 fl. oz. of WATACIDE DTC-10 per 1000 gal of water to provide 100 to 150 ppm based on total weight of WATACIDE DTC-10.

Subsequent slug additions should be made until control is evident. Make subsequent slug additions at intervals of 100 ppm WATACIDE DTC-10. The rate of addition depends upon the relative amount of microbiological problem. Slug additions should be made to the sump or
