WATACIDE DTC-50

**ACTIVE INGREDIENT:**

Potassium dimethyldithiocarbamate ..... 50.0 %  
**INERT INGREDIENTS** ..... 50.0 %

This product contains 5.2 lb. of active ingredient per gallon and weighs 10.4 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

**STATEMENT OF PRACTICAL TREATMENT:** In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician. Never induce vomiting or give anything by mouth to an unconscious person.

**Note to physician:** Probable mucosal damage may contraindicate gastric lavage.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, reservoirs, oceans, or public waters unless the product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing the product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

5360-4

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

WATACIDE DTC-50 is used for recirculating cooling tower systems and industrial microbiological slimes. Prior to the use of WATACIDE DTC-50, industrial and/or commercial recirculating cooling towers should be cleaned to remove algal growth, microbiological slimes, and other deposits. An initial slug addition of 2.0 to 3.0 fl. oz. of WATACIDE DTC-50 per 1000 gal. of water to provide 20 to 30 ppm WATACIDE DTC-50 based on total weight of water in the system until control is evident. Make subsequent slug additions of WATACIDE DTC-50 per 1000 gal. of water ( WATACIDE DTC-50 ) every 2 to 5 days. The frequency of addition depends upon the relative amount of microbiological problem. Slug additions should be made to all recirculating cooling tower systems.

WATACIDE DTC-50 is used for industrial microbiological slimes which maintain effective mist-eliminating components. Prior to the use of WATACIDE DTC-50, industrial and/or commercial recirculating cooling towers should be cleaned to remove bacterial slime and other deposits. An initial slug addition of 6.0 fl. oz. of WATACIDE DTC-50 per 1000 gal. of water is recommended. Repeat initial dosage until control is evident. Subsequent slug additions of 3.5 to 6.0 fl. oz. of WATACIDE DTC-50 per 1000 gal. of water should be employed every 1 to 5 days. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions may be made to the sump or the water treatment system.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Do not expose to extreme temperatures. Do not stack more than 10 drums. Drums should be placed in overpack drums for disposal. Spills should be absorbed and disposed of in a sanitary landfill. Keep container closed when not in use.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal, incineration, or reuse is a violation of Federal Law. If these wastes cannot be disposed of as directed, contact your State Pesticide or Environmental Control Agency for guidance.

**CONTAINER DISPOSAL:**

- PLASTIC:** Triple rinse (or equivalent). Then offer for recycling or reuse, or incineration, or by other procedures approved by state and local authorities.
- METAL:** Triple rinse (or equivalent). Then offer for recycling or reuse, or incineration, or by other procedures approved by state and local authorities.
