<input type="checkbox"/>	Excel Coatings, Inc. 318 Pendleton Way Oakland, CA 94621	<input type="checkbox"/>	16/ 17/202 18/ 1
<input type="checkbox"/>		<input type="checkbox"/>	

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 53625-1."
 - b. Complete and return to us the enclosed Confidential Statement of Formula.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

PRESERVZITTM

WOOD PRESERVATIVE

APPLICATION SITE

Can be used to preserve both interior and exterior wood. Interior use is only needed when wood is subject to frequent or prolonged wetting (e.g. condensation or rain seepage). Can be used for above ground, ground contact and below ground uses. Below ground, or ground contact use requires a minimum 5 minute dip. For even further protection, dip for one hour. Wood to be treated should be dry and well seasoned. Fence posts must have bark removed. For fence posts, or finished timbers to be buried in soil, immersion for 12-48 hours provides long term protection (pine species may be adequately penetrated in 6-8 hours). Cut timbers should be immersed 15-30 minutes per inch of thickness, except in case of pine species which absorbs the preservative at a faster rate. For above ground use, apply two brush coats or dip for 3 minutes per inch of thickness. All wood should be treated after all cuts are made and before use in the structure.

• PROTECT PRODUCT FROM FREEZING • FABRIC AND CORDAGE PROTECTION

Can be used to protect and preserve fabric against mildew, mold and fabric destroying and staining fungus including rope, fish net, twine, canvas, burlap and other fabrics. Materials should be thoroughly saturated until wet and air dried before use. Material can be either sprayed or dipped for complete saturation. Treats approximately 75 square feet of fabric per gallon. Do not use on fabric intended for food or feed contact surfaces or clothing. Not for use on fabric or cordage in ground contact situations.

WOOD PRESERVATIVE USES

Protects the following types of wood: shingles, millwork, windows, outdoor furniture, docks, piers, posts, pilings, block flooring, staking material, decks, spars, house siding. Protects wood in all the above applications including nursery lumber, slats, and beehive crates.

PHYSICAL PROTECTION

Inhibits warping, shrinking, swelling, checking, cracking, water marking of the wood. Can be painted after drying for 24 hours. For wood containing resins and other materials, weathering will enhance paint adhesion. This colorless product offers a penetrating fungicide which will not bloom.

COVERAGE

100-300 square feet - depending on porosity of wood and method of application.

MANUFACTURED FOR
EXCEL COATINGS, INC.
OAKLAND, CALIFORNIA 94621

**RECOMMENDED
FOR USE ON:
SHINGLES, SHAKES
FENCING, LUMBER,
DECKS, RAILINGS,
WINDOWS, SILLS

IMMEDIATELY. — IF ABSORBED THROUGH SKIN, wash thoroughly with soap and water — IF IN EYES, Flush with plenty of water and get immediate medical attention. — CONTAMINATED CLOTHING should be removed and washed thoroughly before reusing.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label.

PHYSICAL OR CHEMICAL HAZARDS

Use only with adequate ventilation. Close container after each use.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: PRESERVZIT™ will freeze. Store at temperatures between 40°F and 100°F. If the product has been spilled or is leaking, remove the source of the spill or leak. Recover free liquid. Spread absorbent, then pick up and place in containers. Then, where applicable, wash area with detergent and water. Store PRESERVZIT™ in the original container only. Keep container closed when not in use.

CONTAINER DISPOSAL: Do not use empty container. Wrap container and put into trash collection.

INSECT CONTROL CLAIMS

Protects wood against attack by termites.

FUNGICIDAL ACTIVITY

Protects and preserves wood against mold, mildew, rot, wood destroying fungi and mildew stain.

NOTES TO USER

Do not apply over painted or varnished surfaces. Do not apply over bark.

Do not use on wood intended for food, feed, potable water, livestock or dairy animals contact surfaces.

May injure living plants during application. Cover plants to protect against direct contact.
