NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(9) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below when you release the product for shipment.
 - a. Add the phrase "EPA Registration No. 53707-1."
 - b. Based on the Eye Irritation study the appropriate signal word is DANGER.
 - c. The signal word DANGER must appear on center front panel of label.
 - d. Precautionary statements must be revised to include "DANGER. Causes irreversible eye damage. If in eyes flush with plenty of water and seek immediate medical attention."

SIGNATURE OF APPROVING OFFICIAL: *Henry M. Jacoby* DATE: 7/10/86

- e. Upon submission of Acute Inhalation data, Acute Dermal study, and Dermal Sensitization study, additional precautionary labeling may be necessary.

3. All data except Acute Inhalation are acceptable to support conditional registration of this product. In the Acute Inhalation study actual measured concentration must be submitted. For future submissions please note, in the Acute Oral study, LD₅₀ and 95 percent confidence limits for males and females individually must be submitted.

4. Acute Dermal and Dermal Sensitization studies were not submitted and these studies must be submitted or data to support waiver.

5. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS (AND
DOMESTIC ANIMALS)

WARNING

(18 pt)

May be harmful if swallowed. Causes severe eye irritation.
Do not get in eyes, on skin or on clothing.

First Aid: If swallowed, drink plenty of water.

If in eyes, wash eyes with plenty of water for
15 minutes. Seek medical attention.

If on skin, wash thoroughly with soap and water.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not add directly to water.
Do not contaminate water by cleaning of equipment or disposal
of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a
manner inconsistent with its labeling.

STORAGE AND DISPOSAL

(12 pt)

Do not contaminate water, food, or feed by storage or disposal.
Wastes resulting from the use of this product may be disposed
of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent). Then offer
for recycling or reconditioning, or puncture and dispose of in
a sanitary landfill, or by other procedures approved by state
and local authorities.

Recommended Levels of Use:

Most flexible PVC systems will not require the addition of a
heat stabilizer beyond that provided by Supercide.

A level of 2% Supercide, based on the total weight of plastisol,
will give excellent control against bacteria and mold organisms
on vinyls used indoors such as shower curtains, wall coverings
or vinyl sheeting.

A level of 4% Supercide should be considered for vinyls that
will be used outdoors. These include vinyl tarpaulins, awnings,
siding, tents, stadium cushions and swimming pool liners.

Supercide should be added to the system at the same time as other
resin additives are added in the initial stages of processing.
