and Rodenticide Act, as amended)

EPA REGISTRATION NO.

53719-18

DATE OF ISSUANCE

June 19, 1991

TERM OF ISSUANCE

Until Reregistration

NAME OF PESTICIDE PRODUCT

Bengal wasp & hornet killer

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Bengal Chemical, Incorporated
15757 Airline Highway
P.O. Box 40407
Atlanta, GA 30350

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This notice is given to you in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Immediately inform the Administrator of the registration / reregistration of your product under FIFRA section 3(c)(3) or FIFRA section 3(c)(7)(B) and to the Administrator of the product's name and formula.

2. Inform the Administrator of the product's name and formula and you release the product for shipment.

3. Submit to the Administrator 10 copies of your final printed label for the product for shipment. Refer to the A-79 enclosure for a further description of the label's requirements.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 3(c). Your release of the product is the product's name and formula.

A stamped copy of the label is enclosed for your records.

Contains Synergized Bendiocarb Quick Kill**

**KILLS WASPS, HORNETS
AND YELLOW JACKETS**

ACTIVE INGREDIENTS:

*Bendiocarb: (2,2-dimethyl-1,3-benzodioxol-4-yl methylcarbamate)0.10%

**Piperonyl Butoxide, Technical0.50%

INERT INGREDIENTS99.40%

TOTAL 100.00%

*Protected by U.S. Patent No. 3,736,338

**Equivalent to min. 8.46% Butylcarbitol (5-propylpiperonyl) ether and 0.18% related compounds.

WARNING

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

May be harmful if swallowed or absorbed through the skin. Do not get in eyes. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130°F may cause bursting.

Buyer assumes all risk of use, storage or handling of this material not in strict accordance with directions given herewith.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by licking back of throat with finger. Do not give anything by mouth to an unconscious person.

If inhaled: Remove victim to fresh air. Apply artificial respiration if indicated.

If in eyes: Flush with plenty of water. Contact a physician if irritation persists.

If on skin: Remove contaminated clothing and wash affected areas of skin with soap and water. Contact a physician if irritation persists. Wash clothing with soap and water before reuse.

NOTE TO PHYSICIAN: Bendiocarb is a cholinesterase inhibitor. Atropine sulfate 2 mg. should be given by injection and repeated as necessary until atropinized.

STORAGE AND DISPOSAL

STORAGE: Store in a cool dry place inaccessible to children and pets. Exposure to temperatures above 130° F may cause bursting.

DISPOSAL: Replace cap, wrap container in several layers of newspaper and discard container in trash. Do not incinerate or puncture.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not use as a space spray indoors.

To be used in and around homes, apartments, commercial buildings, kennels, barns, patios, institutions, warehouses, theaters, office buildings, schools, motels, hotels, transformers, electrical boxes and those areas where wasps, hornet and yellow jacket nests are generally located.

To operate, remove protective cap and depress button, being sure to aim spray opening at the location to be sprayed. Direct spray at wasps, hornets and yellow jackets whenever possible and under eaves, into nests, cracks, holes or crevices whenever insects are noticed. Spray for about 10 seconds or until surface is moist from insecticide. To prevent entrance of insects into the house, spray around points where outside plumbing, faucets, etc. enter the house and into any cracks or crevices in foundation as well as along sills and ledges.

Kills wasps, hornets, and yellow jackets. This spray is fast acting when insects are hit directly. With the breeze at back, thoroughly spray the nest until it is soaked. Allow about 24 hours for those insects which were not directly hit by spray to leave the area. If insects should return to the treated area, spray again. This container delivers a stream type spray, making it possible for the operator to stay back from the places sprayed. This formulation utilizes Bendiocarb, a combination specifically effective on this class of insects. Application should be made in the evening when the hornets are at rest.
