## WASP & HORNET KILLER

**23,000 Volt Dielectric Strength  
Contains Synergized Bendiocarb Quick Kill**

**KILLS WASPS, HORNETS  
AND YELLOW JACKETS**

**ACTIVE INGREDIENTS:**

\*Bendiocarb: (2,2-dimethyl-1,3-benzodioxol-4-yl methylcarbamate) .....0.10%

\*\*Piperonyl Butoxide, Technical .....0.50%

INERT INGREDIENTS .....99.40%

TOTAL 100.00%

\*Protected by U.S. Patent No. 3,736,238

\*\*Equivalent to min. 0.40% (butylcarbitol) (6-propylpiperonyl) ether and 0.10% related compounds.

**WARNING**

**KEEP OUT OF REACH OF CHILDREN**

See Back Panel For Additional Precautions  
Net Weight: 16 oz.

**WARNING**

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

May be harmful if swallowed or absorbed through the skin. Do not get in eyes. Avoid breathing spray mist. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling. Do not allow spray to contact plastic, rubber or asphalt surfaces. Avoid contact of spray with leaf surfaces of growing plants.

**PHYSICAL OR CHEMICAL HAZARDS**

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Buyer assumes all risk of use, storage or handling of this material not in strict accordance with directions given herewith.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

**STATEMENT OF PRACTICAL TREATMENT**

If swallowed: Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by tickling back of throat with finger. Do not give anything by mouth to an unconscious person.

If inhaled: Remove victim to fresh air. Apply artificial respiration if indicated.

If in eyes: Flush with plenty of water. Contact a physician if irritation persists.

If on skin: Remove contaminated clothing and wash affected areas of skin with soap and water. Contact a physician if irritation persists. Wash clothing with soap and water before reuse.

**NOTE TO PHYSICIAN:** Bendiocarb is a cholinesterase inhibitor. Atropine sulfate 2 mg. should be given by injection and repeated as necessary until atropinized.

**STORAGE AND DISPOSAL**

**STORAGE:** Store in a cool dry place inaccessible to children and pets. Exposure to temperatures above 130°F may cause bursting.

**DISPOSAL:** Replace cap, wrap container in several layers of newspaper and discard container in trash. Do not incinerate or puncture.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not use as a space spray indoors.

To be used in and around homes, apartments, commercial buildings, kennels, barns, patios, institutions, warehouses, theaters, office buildings, schools, motels, hotels, transformers, electrical boxes and those areas where wasps, hornet and yellow jacket nests are generally located.

To operate, remove protective cap and depress button, being sure to aim spray opening at the location to be sprayed. Direct spray at wasps, hornets and yellow jackets whenever possible and under eaves, into nests, cracks, holes or crevices whenever insects are noticed. Spray for about 1-2 seconds or until surface is moist from insecticide. To prevent entrance of insects into the house, spray around points where outside plumbing, faucets, etc. enter the house and into any cracks or crevices in foundation as well as along sills and ledges.

Kills wasps, hornets, and yellow jackets. This spray is fast acting when insects are hit directly. With the breeze at back, thoroughly spray the nest until it is soaked. Allow about 24 hours for those insects which were not directly hit by spray to leave the area. If insects should return to the treated area, spray again. This container delivers a stream type spray, making it possible for the operator to stay back from the places sprayed. This formulation utilizes Bendiocarb, a combination specifically effective on 1's class of insects. Application should be made in the evening when the hornets are at rest.
